Va-Va is a home-made line of vegetable and fruit specialty products; a pioneer in all natural Mediterranean specialties. Va-Va recipes are centuries old and keep the same rustic, home-made flavor that people adore. All Va-Va products are 100% All Natural, Gluten Free and GMO Free.

Airborne believes in three things for your honey; honest, undamaged, and traceable. Airborne has over 100 years of experience. They do not heat, ultra filter, or pasteurize their honey. Each jar of honey is traceable back to the specific hive from whence it came. Each batch of honey is tested for top quality. Their patented processes produces the most delicious, pure, and robust honey in the world.

From fabled Mediterranean valleys in Europe, comes Balkan Farms. With a robust, rustic brand of traditional cheeses and other delicacies, their attention and dedication to quality makes Balkan Farms some of the creamiest, tastiest sheep's cheese in the world.

Evropa has left a mark on a great number of generations and has held this recognition for more than 130 years. Evropa began as a trade workshop for the production of lokum(also known as Turkish Delight), and similar sugary products. Today, they also produce chocolates, wafers, candies and other mouth-watering delights!

Vincinni's secret of success is the ideal balance of experience and tradition, and the dedication put in every phase of the operation, from the selection of raw materials, the recipes, the manufacturing process, to the modern and attractive packaging design. Vincinni products have exceptionally balanced nutrition, value and nutrients. Our consumers are a perpetual source of enthusiasm and inspiration!

Va-Va Ajvar

Ajvar, both hot and mild, is a traditional spread made from succulent roasted red peppers, eggplant, and spices.

Ajvar is a staple on tables throughout the world, and for good reason. We make a mild, sweeter version, as well as a spicier version, made with the addition of fefferoni peppers.
