a HEALTHY SECRET *from* MACEDONIA

KORO

Koro's main and continuous efforts are to promote Macedonia's ecologically clean and wild growing herbal raw materials. In so doing, Koro creates essential oils made of these wild growing medicinal herbs and forest fruits and, in turn, promotes the finished products, such as teas, herbs, and spices, made with these natural resources. All of their herbal products come, naturally, from fertile and untouched valleys.

a SWEET FAIRY TALE of FLAVOR

Evropa has left a mark on a great number of generations and has held this recognition for more than 130 years, which makes it one of the oldest companies of confectioneries in the world. Evropa began as a trade workshop for the production of lokum (also known as Turkish delight), and similar sugary products. Today, they also produce chocolates, wafers, candies, and other mouth watering delights!

the W A R M INVITATION *into* YOUR DAY

grand KAFA

Turkish coffee as a method was adopted by the Ottomans beginning in the 16th century, and has since spread all over the world. Roasted and then very finely ground coffee beans are boiled in a pot (called a cezve), usually with sugar, and served in a cup. The grounds are allowed to settle, giving Turkish coffee a very strong flavor. It is customarily drunk along with water or liquor.

Vitalia is one of the original health food companies in all of Europe. They have mastered the development of sugar-free products.
