- Shortest leadtime for partitions
- Available in Series 400 Floor Mounted Overhead Braced and Standard Hardware Only
- Up to 20 Compartments

Contact Bradley for more information.

Look for the BradEX logo indicating product colors or textures that ship in 48 hours!

Mills® Partitions

Distinctive style. Superior durability.

Offering a wide selection of the most innovative product materials available, Mills partitions are suited for a variety of applications and environments. The quality materials used provide key features to architects and specifiers, such as aesthetic appeal, vandal resistance, low cost and warranties.

From high-performance material options to creative style solutions, Mills partitions provide architects smart, economical choices.

NO SITE™ PARTITIONS

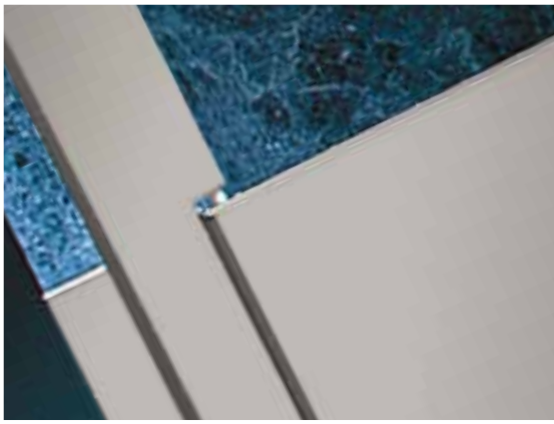
Bradley now offers No Site™ style partitions with no gap between the doors and pilasters. Traditional stalls can have up to a ½" gap, leaving an uncomfortable "site" line.

- Partitions close the gap for a more private space
- Perfect for upscale environments or international applications where privacy is important
- Available in Bradmar™ solid plastic, floor-mounted, overhead braced and floor-to-ceiling styles

Design Reg. No. 000853064

Unoccupied

Occupied



Integral Hinge System

Hidden within the door cavity, this design combines the strength of HDPE with a two-piece 1/2" nylon cam-action pin and 3/16" stainless steel pin for the ultimate in reliability.

BRADMAR™ SOLID PLASTIC

Bradmar Partitions, Urinal and Sight Screens and Shower Dividers are fabricated from 30% pre-consumer, 100% pre-consumer or 100% post-consumer recycled high density polyethylene (HDPE).

- Low maintenance and high vandal resistance
- Ideal for schools, theme parks, stadiums and arenas – any high-traffic restroom
- 15-year warranty – one of industry's best
- GREENGUARD Certified as a low emitting material

GREEN MATERIALS

Bradley continues to demonstrate its commitment to the environment by offering the most green restroom partition materials.

Along with minimizing waste, green design looks at energy efficiency, the health and comfort of the space, and a harmony between nature and technology. Our newest material is 100% post-consumer recycled content HDPE – made entirely of recycled milk jugs. On average, each stall keeps more than 1600 milk jugs out of landfills.

STAINLESS STEEL

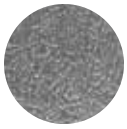
Mills takes this popular look to the limit with seamless panels.

- Facing sheets of panels and doors are integrally locked together and corners are welded smooth
- The Permaseal™ design is stronger than conventional crown molding construction
- The finish wraps completely around the edges
- GREENGUARD Certified as a low emitting material

Stainless Steel Textures

5WL Textured Stainless

Brushed Stainless



Leather Grain Stainless

The Permaseal™ Edge

Mills' exclusive design locks facing metal sheets integrally together around the perimeter of the panel.

- No moisture penetration
- No rust
- Baked enamel and stainless steel only
- 15-year warranty against rust-out – best in the industry

BAKED ENAMEL

This quality baked enamel finish combined with the exclusive Permaseal™ design makes Mills the best high value metal partition system available.

- State-of-the-art paint system offers 21 rich colors
- Durable baked enamel finish allows for years of long-lasting beauty
- GREENGUARD Certified as a low emitting material

fusion Design

Are you looking for a new design twist? Mills is your only source offering a combination of granite partition panels, pilasters and urinal screens, and stainless steel or baked enamel doors. Granite is the most durable material available for bathroom partitions, requiring the least maintenance due to its stain- and scratch-resistant qualities. Transform an ordinary place into an extraordinary space with Fusion partitions' beauty and style.

- Decorative high-end commercial partitions
- Natural granite partition panels, pilasters and urinal screens
- Stainless steel doors and hardware (see stainless steel textures pg 4)
- Doors also available in baked enamel (see baked enamel colors above)
- Floor-mounted overhead-braced only

Fusion Colors

New Spring Green	Golden Garnet	Luna Pearl	Tropical Brown

PLASTIC LAMINATE

Offering limitless design possibilities and low cost, plastic laminate is the perfect solution for restaurants, retail outlets, professional office buildings and movie theaters.

- Aesthetic value in a corrosion-resistant material
- High-pressure bonding exceeds industry standards
- GREENGUARD Certified as a low emitting material

Plastic Laminate Colors

Almond (0920)	Bronze Rust (107F)	Earth Wash (061F)	Indigo Terra (7263)	Mineral Spa (072F)	Nature Solidz (032F)	Oyster Gray (0929)

Folkstone (0927)	Folkstone Celesta (012F)	Limestone (7264)	Natural Canvas (7022)	New Burgundy (103F)

PARTITION STYLES

SENTINEL™ FLOOR-MOUNTED, OVERHEAD BRACED SERIES 400

This style provides the most economical solution for heavy traffic and vandalism-prone areas. Because it requires no special floor or ceiling construction, installation is easy in new construction or existing buildings. The anti-grip head rail provides outstanding rigidity.

FLOOR-BRACED SERIES 500

This style complements design with functional performance. Recommended for buildings with high ceilings, it enhances the effect of spaciousness. A minimum three inch concrete floor for anchoring is required. This style not available in Bradmar solid plastic or Fusion.

PHENOLIC CORE

Its impact resistance and superior strength are a result of high heat and high-pressure molding of solid phenolic core material with a decorative melamine surface.

- Resisting water, oil and bacteria, phenolic partitions withstand wet and humid environments
- Perfect for high traffic areas where durability, strength and finish options are needed
- GREENGUARD Certified as a low emitting material

Phenolic Colors

Autumn Indian Slate (059F)	Cotta Stone (062F)	Earth Wash (061F)	Labrador Granite (057F)	Madras Indian Slate (056F)	Sand Crystall (054F)
Sienna Terra (7216)	Stone Grafix (058F)	Black (0909)	Folkstone (0927)	Indian Smoke (063F)	White (0949)
Acajou Mahogany (029F)	Amber Maple (037F)	Wild Cherry (053F)			

Bradex FAST SHIP

Almond (0920)	Folkstone Celesta (012F)	Graphite Grafix (006F)	Natural Canvas (7022)	Navy Grafix (7018)

CEILING HUNG
SERIES 600

This style is ideal for areas with low ceilings. Offering an area free from obstruction to allow for fast and easy maintenance, the system requires structural supports in the ceiling for maximum rigidity. Not recommended for ceiling heights over eight feet. Not available in Bradmar solid plastic or Fusion.

FLOOR-TO-CEILING
SERIES 700

This style works well where additional support is required. Anchored at the floor and ceiling. Offers the most stability. Not available in Fusion.

		Applications	Aesthetics	Vandal Resistance
Baked Enamel		The economical choice for schools, office buildings, restaurants, religious facilities or any application with moderate traffic located in a moderate climate.	21 standard colors. High quality gloss finish.	Finish is susceptible to graffiti and scratches, but is durable and impact resistant.
Plastic Laminate		Recommended for restaurants, office buildings or any application with moderate traffic and a moderate to dry climate.	Almost any standard Formica® or Wilsonart® color/pattern can be selected. Edges are laminate.	Durable. Scratches can be repaired with laminate fill products.
Phenolic Core		Recommended for outdoor parks, pools, shower rooms or any application where oil or water is needed. Perfect for a humid or wet climate.	Almost any standard Formica®, Wilsonart® or Trespa® color/pattern can be selected. Edges are solid black.	Highly durable. Scratches can be repaired with laminate fill products. Heavy-duty stainless steel hardware is standard.
Bradmar		Recommended for schools, parks, retail or any application that experiences heavy traffic in a humid or wet climate.	19 standard colors. Includes solid and speckled colors. Aluminum brackets. Stainless steel shoes. Plastic shoes/brackets available in four colors.	Graffiti is easily wiped away with ordinary cleaners. Dent proof.
Stainless Steel		Recommended for airports, stadiums, public rest stops or any application with heavy traffic and moderate climate.	High design and contemporary style. Brushed finish, 5WL textured or leather grain pattern available. 5WL textured or leather grain pattern wraps around edges.	Textured patterns resist scratches. Buffing removes scratches from brushed finish.
Fusion		Recommended for boutiques, hotels, casinos, galleries, art museums, restaurants, high-end department stores and offices.	A marriage of granite's natural beauty and the sleek style of stainless steel or baked enamel.	Quartz and feldspar, the main components of granite, are the hard minerals that make it extremely stain- and scratch-resistant.
