QUALITY OEM REPLACEMENT FILTERS

WIX 49575 replacement air intake filter

Millennium Filters high quality air intake filters for use in marine off-shore applications. Designed to provide the highest levels of cleanliness and performance which reduces wear and maximizes component life. Maintaining system cleanliness is an important factor in reducing operating costs. Millennium-Filters are guaranteed to meet or exceed factory specifications in terms of form, fit and function.

QUALITY OEM REPLACEMENT FILTERS

Millennium Marine Air Intake Filters

Millennium-Filters supplies direct replacements for intake air filters used in marine off-shore applications. Filter media consists of oil-impregnated cotton gauze sandwiched between epoxy-coated aluminum wire-mesh with polyurethane sealing surfaces.

These quality filter elements are directly interchangeable with major manufacturers including:

- **Caterpillar**
- **Detroit Diesel**
- **Donaldson**
- **NAPA**
- **Parker-Hannifin**
- **Racor**
- **Volvo Penta**
- **Walker Filtration**
- **Wix Filters**

Maintaining system cleanliness is an important part of reducing owning and operating costs. Millennium-Filters are designed to provide the highest levels of cleanliness and performance which reduces wear and maximizes component life.

Millennium Filters are guaranteed to meet or exceed original equipment manufacturer specifications in terms of form, fit and function.

Elements are available in a variety of configurations including cylindrical, conical, panel, aluminum and paper media.

These quality marine filters are in use in countless applications from the Great Lakes to waterways all over the world.
