

Mini- EggLite® Installation Instructions

CONGRATULATIONS!

Thank you for purchasing the Mini-EggLite from Cal Pump. Few manufacturers are confident enough in their product to offer a 3 year warranty, but the Mini-EggLites are exceptionally well designed LED lights which when used properly will provide years of service. **The three year warranty is on the LED lights only and proof of purchase must be provided for warranty replacement!** These lights are designed with the highest quality and long lasting components. Please contact our customer service department, should you need assistance with this product. Phone (800) 225.1339 in the U.S. and Canada, Monday through Friday, 7:00 AM to 5:00 PM Pacific Time or visit our website at www.calpump.com. Outside of the U.S. call 661-257-7330, or fax 661-257-7331. To ensure the longevity of your product it is recommended that you follow all of the instructions contained in this booklet.

Assembling Your Mini-EggLite®

- Check to make sure that the complete Mini-Egglite® kit (LCE2) has all of the components shown below.

- The Extra Mini-Egglite® kit (LXE2) does not include a transformer.
- There are o-rings included with your kit. Place an o-ring on each underwater connection before inserting into receptacle (see Fig. 1). These o-rings insure a waterproof connection. The factory may have already installed the o-rings but please check before installation.

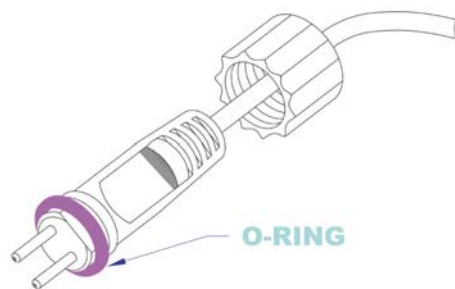

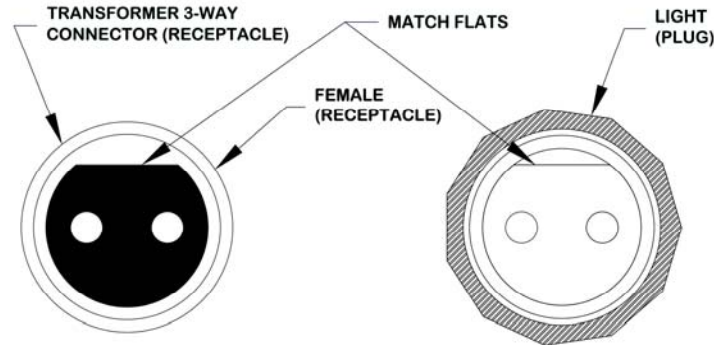

Fig. 1

- Next plug the single plug end of the extension cord into the transformer (**note: the plug is polarized and must be aligned correctly when inserting it into the transformer and the three-way splitter**).
- **The Mini-Egglites must be used with the Cal Pump transformer, do not use with any other power supply. Use of any other transformer may damage the light and voids the warranty.**

- The flat side on the plugs and the receptacles must align for proper polarization. **If plugs are not inserted correctly the lights will not illuminate.**

- Plug the mini-EggLite(s)® into the three-way connector. If additional lights are required (sold separately), remove the plastic cap from the third socket.
- The pliable cord on the mini-EggLite® can be coiled so that the lights stand on their own or they can be wrapped around foliage, or fountain heads.

Initial Startup of Your EggLite® System

- Plug the Transformer into the nearest grounded 120-volt outlet. Your EggLites® should light up.
- **The transformer should remain as dry as possible!**
- Make sure all of your Mini-EggLites® come on.
- The transformer will operate up to 12 Mini-EggLites®, additional models are available without the transformer, model LXE2.
- The Mini-EggLites® can be used submerged or in dry locations. **All lights have been tested prior to shipping.**

Warranty

If the product needs to be returned to Cal Pump for replacement be sure to include your name, address, **proof of purchase**, and reason for return. **No cash refunds will be issued.** All products must be returned freight prepaid. Warranty does not cover any costs associated with the installation or removal of products subject to warranty claims. This limited warranty is extended only to the original purchaser and is void if any of the following apply:

- 1) Alterations have been made to the cord or plug.
- 2) Flammable liquids, solvents, chemicals, or abrasive solutions were used in the application.
- 3) Obvious abuse or misuse of the product took place.
- 4) The warranty label has been tampered with or removed from the product.
- 5) This warranty excludes any moving parts.

All implied warranties including the implied warranty of merchantability are limited in duration to the same extent as the express warranty as allowed by the state law. Cal Pump expressly disclaims and excludes any liability for consequential or incidental damages for breach of any express or implied warranty, as allowed by the state law. Please contact our customer service department, should you need assistance with this product. Phone (800) 225-1339, in the U.S. and Canada, Monday through Friday, 7:00 AM to 5:00 PM Pacific Time or visit our website at www.calpump.com. Outside of the U.S. call 661-257-7330, or fax 661-257-7331. To ensure the longevity of your product it is recommended that you follow all of the instructions contained in this instruction manual.
