Product dimensions

- Product dimensions (W x H x D): 3.9 x 10.7 x 1.8 cm
- Product dimensions (W x H x D): 1.5 x 4.2 x 0.7 inch
- Weight: 0.058 kg
- Weight: 0.128 lb

Accessories

- Included accessories: Media Player Control software, USB cable, neck strap, stereo lapel microphone, stereo headphone, 2 rechargeable AAA batteries, user manual
- Optional accessories: Microphone/earphone combi, Plug-in Microphone LFH9171, Tie Clip Microphone LFH9173

Highlights

Instant one-touch recording

Press and hold the record button for a moment to switch the Digital Voice Tracer on and start recording instantly.

USB hand control

Control all playback functions with your thumbs! Commands such as play, stop, forward, rewind, and a three-second backspace can be given via the smart USB hand control which is simply placed in front of the keyboard. Thanks to plug and play installation, getting started is as easy as winking.

Optimized ergonomics

The USB hand control delivers ergonomic design for convenient PC transcription of audio files. The lightweight headphones are designed for comfort during extended use, you'll hardly notice you're wearing them.

Microphone sensitivity

The signal-to-noise (S/N) ratio of the high-sensitivity microphone is far better than those of standard microphones. Recording sensitivity is increased (picks up more voice signal) without compromising sound quality.

Extra large backlit display

The large graphical display lets you view all important file information at a glance, thanks to the backlit display, even in poor lighting conditions.

Index setting

The handy index function lets you mark a particular point in a recording for easy retrieval when playing back.

USB mass storage device

As a USB mass storage device, the Voice Tracer offers a convenient way to save, back up and move files. The Voice Tracer connects to a computer using a USB connection and does not require special software to be installed. The Voice Tracer is automatically displayed as a removable drive, allowing you to simply drag and drop files to and from the unit.
