

The **KONEXX Phone 2 PC - Advanced** enables you to record all telephone conversations and save them as WAV files. Saved WAV files can then be e-mailed as attachments or played back for future reference. The **KONEXX Phone 2 PC - Advanced** is the ultimate low cost recording solution that bundles the Phone 2 PC Interface with our Phone 2 PC recording software for recording all of your important telephone conversations.

Phone 2 PC - Advanced

Phone 2 PC Interface Specifications:

- Phone 2 PC Interface installs easily to the office telephone and your computer sound card
- Automatic Gain Control (AGC) circuit ensures conversation is recorded clearly
- Powered by AC adapter or optional Game Port
- Compatible with both analog & digital phones
- Compact Size: 3.0 (L) x 1.3 (W) x 1.0 (H) in.
- Weight: 1.5 ounces
- Warranty: 90 days factory

Phone 2 PC - Advanced Features:

- Phone 2 PC hardware and software easily installs on an individual PC or laptop
- Recorded files may be stored on the local hard drive or network servers
- Phone 2 PC Interface connects your telephone handset with your computer sound card enabling you to record telephone conversations directly to a compressed .wav file
- Saved files can be e-mailed as attachments and archived for future reference
- Bookmarks can be inserted during recording/playback for easy access to important points of the conversation
- Auto file naming feature allows you to save files with fixed prefixes and date/time
- Add an annotation at the beginning or end of a recorded file
- User can select on-demand or voice activated recording

Phone 2 PC – Advanced Recording Software Specifications:

- Phone 2 PC software uses GSM 6.10 compression algorithms to keep file sized manageable (1 hour of recording time = approx. 7.2MB)
- Compatible with any Microsoft Windows Operating System
- Uses Pulse Code Modulation (PCM) for editing and annotation
- Easy to use Graphical User Interface (GUI)

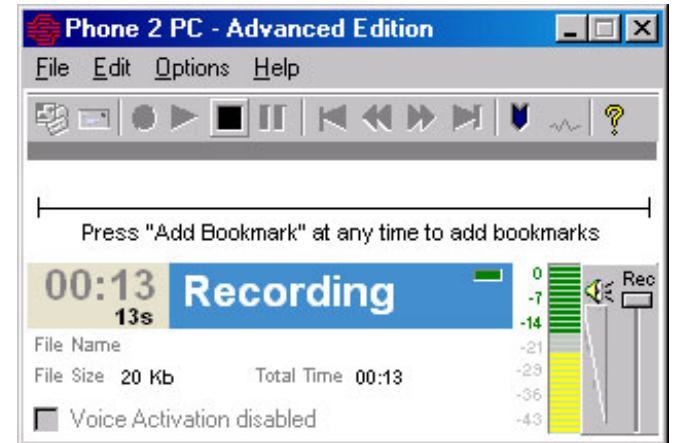

Applications:

Phone 2 PC - Advanced provides a cost-effective way to record all of your important telephone conversations. Phone 2 PC applications can be used in a wide variety of vertical markets:

- **Banking:** Record wire transfers for verification and security purposes
- **Stock brokers:** Record buy/sell conversations for liability protection
- **Insurance:** Record claims or use for fraudulent investigations
- **Realty:** Capture details of negotiations with other brokers & title companies
- **Business Travelers:** Can record business conversations to their notebook while traveling
- **Education/Government:** Record any potential threats to aid law enforcement
- **Law Enforcement:** Record investigations and non-emergency critical information
- **Legal/Medical:** Dictate via your phone and e-mail the file for transcription purposes
- **Pharmaceutical:** Record call in prescriptions for accuracy and liability protection
- **Transportation:** Dispatchers can record pick up/delivery services for verification
- **Construction:** Record change orders from the field for project management
- **Inside Sales/Telemarketing:** Record sales transactions for accuracy or training purposes
- **Customer Service/Help Desks:** Record service/support calls for quality assurance
- **Sales:** Enhance your e-mail with a personalized voice message
