

## PREFACE

This volume of AILA's *Immigration Regulations*, current through February 1, 2007, covers 8 CFR, which is composed of regulations from DHS (Chapter I) and EOIR (Chapter V). Newly incorporated regulations include a joint DHS/DOJ interim rule deleting the absolute bar on an arriving alien's ability to adjust status if he or she is in removal proceedings (8 CFR Parts 1, 245, 1001, and 1245); a joint DHS/DOJ final rule updating and clarifying certain requirements regarding affidavits of support (8 CFR Parts 204, 205, 213a, 299, 1205, and 1240); an ICE interim rule establishing standards for electronic signatures and the electronic retention of Form I-9 (8 CFR Part 274a); and an EOIR interim rule amending the agency's regulations relating to the organization of the Board of Immigration Appeals by adding four Board members (8 CFR Part 1003).

The layout of the CFR pages allows users to easily distinguish between subsections, paragraphs, clauses, etc., with nested text and more conspicuous headings at the subsection and paragraph level. The running headers remain detailed, allowing users to quickly find a needed provision. New for this edition is a detailed, combined, comprehensive index that includes references to both Volumes I and II of this CFR set, making this an even more user-friendly publication.

As with all of AILA's primary sources, corrections and updates to AILA's *Immigration Regulations* will be available at [www.aila.org/BookUpdates](http://www.aila.org/BookUpdates). Updates will include regulations amending the CFR as they are published in the *Federal Register*. We welcome any comments and suggestions you may have regarding any AILA publication. Please send your remarks to [books@aila.org](mailto:books@aila.org).

AILA is pleased to continue to offer its print INA and CFR publications on a standing order basis, providing users with a convenient way to be sure they have the most current edition of each, as soon as they are available. For further information, please see the form on the next page.
