

Solid Plastic Product Information

High Denisty Polyethylene (HDPE) and High Denisty Polyproylene (HDPP)

Hadrian again gives designers, architects and end-users more choice in washroom design by offering both HDPE and HDPP solid plastic toilet partitions. HDPE meets industry standards while HDPP surpasses them in many areas and is the preferred solid plastic material of the AIA's MasterSpec. Below is a comparison of the two materials:

<i>Polyethylene (HDPE)</i>	<i>Polypropylene (HDPP)</i>
Available for Standard Solid Plastic only	Available for Standard and Arch Solid Plastic
Gloss finish	Matte finish
Dent and crack resistant	More dent and crack resistant
Chemical and corrosion resistant	Chemical and corrosion resistant
Rust proof	Rust proof
Graffiti resistant	More graffiti resistant
Scratch resistant	More scratch resistant
Non-absorbent	Non-absorbent
Self-lubricating surface resists marking	Self-lubricating surface resists marking
Homogeneous color throughout	Homogeneous color throughout
Easier to cut on site	Harder to cut on site
Theft-proof 6-lobe security head stainless steel screws	Theft-proof 6-lobe security head stainless steel screws
20 year warranty against breakage, delamination and corrosion (competitive HDPE warranties are 15 years)	20 year warranty against breakage, delamination and corrosion
