

## *Animal\*Trac Software*

### *What our Users Have to Say!*

- It Makes Everything so Easy! Barbara , TX
- It is really easy to use and all the information is right there! Linn, CA
- The program is Awesome! Linda, CA
- We love your program. It covers everything. Mark, TX
- I've had Animal\*Trac for several years.... This is the best program I've found to manage my herd. Jan, PA
- I love the program. The pedigrees are beautiful. Sarah, Scotland
- It used to take 2 days to do my invoices. Now it takes 2 hours. Belle, OR
- The program is great. I'm telling all my friends. Chris, GA
- I have 100 mini mares. It is much easier to register the foals and print stallion reports with the special edition. Karen, SD

- Printing information onto registration applications
- Capture of information unique to breed
- Printing of Breeding Reports where applicable
- Printing of champions in color on pedigree
- For AKC, Show Entries and Litter Record

**Animal\*Trac Software organizes health, services, breeding, show or race, customer, income and expense information. The Software produces pedigrees and sales lists, and maintains information for preparing Income Taxes and Breed Registry Forms.**

**Reports are very flexible providing the information you need when you need it.**

**The system is user friendly for people who are not computer experts.**

**You are our primary focus. That's why along with a computer system that is easy to use and complete you have access to a toll free number with 7 days a week technical support.**

The screenshot shows a software window titled "Animal Note Book for MAIN SEQUENCE". It features a tabbed interface with the following data:

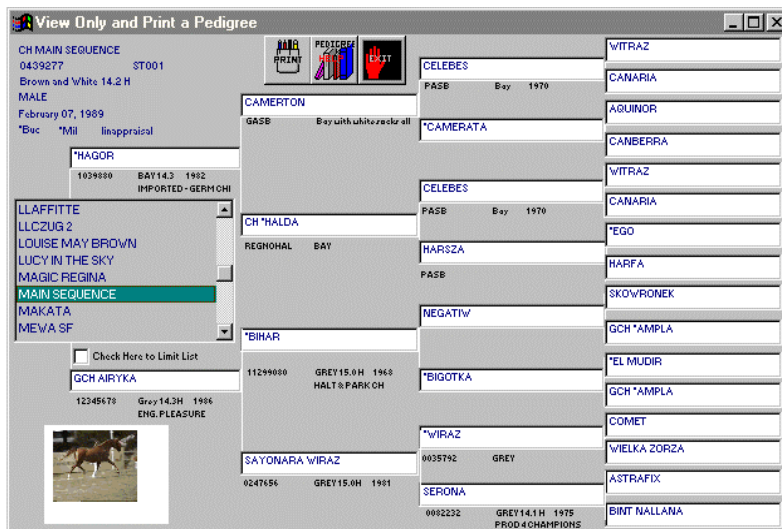

Animal Info	People	Health/Services	Competition	Breeding	Pedigree
	Sire: *HAGOR	Dam: AIRYKA	Registration Number: 0439277	ST001	
	Birth Date: 02 / 07 / 1989	Sex: Stallion	Color: BAY	Title: CH	Other Information: 3 TIMES HALTER CHAMP
Breed: Arabian	Height: 14.2 H	Animal Type: <input type="checkbox"/>	Purchase Price: 1,500.00	Sale Price: 5,000.00	
Location: W 23	Date of Death: / /	Ownership: PWLS	Breeder: DKOEH	<a href="#">See Other Details</a>	
<b>Identifiers</b>	Tattoo/ Identifier: EL1234RDJKL	Neck Tag: MAINSEQ01			

An "EXIT" button is located in the bottom right corner of the window.

[See Information at a glance](#)

You have access to a tabbed animal notebook from the View Button in each window or from the menu. The Notebook shows you all of the information for one animal just by clicking the tabs. You can even correct and add health, breeding or competition records from the notebook

- All Windows are Easy to Use and are consistent in look and feel. Thus the system is User Friendly.
- Auto fill typing boxes save time by finding and completing information while you type.
- Information is connected within the software, so you only have to worry about entering one item at a time.
- Basic system includes all features shown below.
- Professional System includes all features plus those listed under the professional section

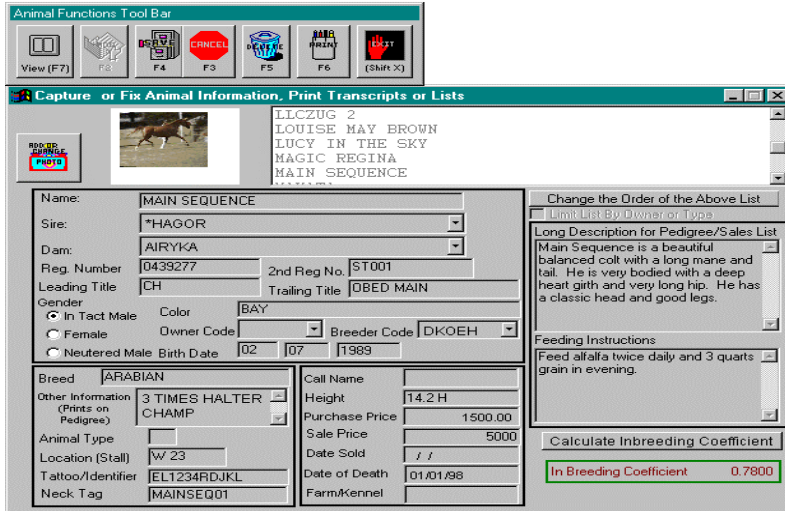

## PEDIGREES

(This is the only feature included in Animal\*Trac Pedigree)

Pedigrees print in 3, 4, 5 or 6 generations with either a box or a line format. If photos are attached to ancestors, you can choose to have the photos print under the parents and grandparent\*s names. Or you can choose to print the descriptive comments under the names.

Other information for each ancestor includes registration number, color, height and birth year and 25 characters of optional information you can enter.

There are two ways to add ancestors for the pedigree. You can enter each individual animal in the Animal Maintenance Window (d) or you can enter ancestors using the auto fill pedigree (b). If you type in a new animal in the fillable pedigree, the system will give you the option to enter the details.

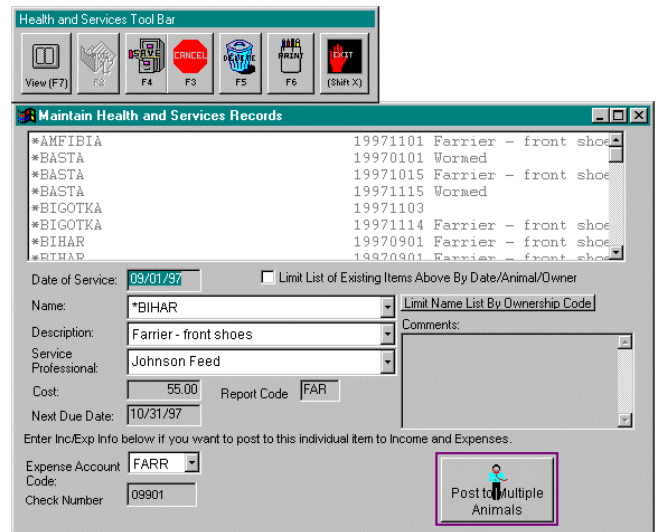

## Animal Records

Animals are connected to owners and breeders with an ownership code and owners are recorded in the customer address book. Photos are maintained with the Animal Record and print on health, show and breeding transcripts and sales lists.

## Health Records

(This is the only feature included in Animal\*Trac Pet)

Health and Services Records Capture veterinary, shots, wormings, treatments, grooming, services, training, or any other information you can think of in Health and Services and print in groups on transcripts. Health and Services Items can be captured for a group of animals at one time without reentering the item. Expenses associated with each animal can be recorded. (see illustration to the right). Selections for Health and Services Choices are defined by the user.

## Competition Records

Keep track of all competition records whether they are show, race or endurance. Track judges, handlers and comments in addition to time, place and points. Class List and Show name lists auto fill based on information entered previously.

## About the Personal Information Manager

Animal\*Trac includes a detailed calendar where the user can record appointments. The calendar can be viewed by day, week, month or year. And the page can be printed.

Appointments can be marked for reminders, and can be made private. Health and services due dates automatically post to the calendar on the day they are due as a reminder. You can then record the actual date the appointment is scheduled to bring the calendar up to date.

## Business Expenses

Income and Expense tracking is as simple as keying in information like a check. There is space for check number, amount, who you paid. The user can also break the expenses down to different accounting categories in one transaction.

## Report Designer

The system allows you to modify existing reports or to create your own reports. This is an advanced feature that is not recommended for Novice Computer Users. With this feature you can change the size of a font, the style or the color on a pedigree form, re-space existing reports.
