"The Whisper Quiet Whole House Fan System"

HOW IT WORKS... "The Garage Ventilation System"

If you can imagine your garage baking from the sun all day heating up your car or stored possessions and attic like a giant oven then turning on your QuietCool garage fan. Picture a giant vacuum sucking out all the hot air trapped in your garage and attic while replacing it with fresh natural cool healthy air...**for pennies a hour!**

Our high volume fan can remove and replace all of the air in your garage 10 to 15 times per hour!

QC1500 GA
Garage to attic fan

QC1500 GX
Garage to exterior fan
(This model does not cool attic)

- | | | |
|--|--|---|
| 1 | 2 | 3 |
| Existing garage wall vents bring in fresh air. | Fan draws cool air in through garage and into attic. | Hot attic air is forced outside through roof vents. |
