## Maytag® Commercial Single-Load Stack Dryer/Dryer

model **MLG23PDH**

### FULL FEATURE LIST

#### Control Panel

- **Advanced Computer Trac® controls - easy to program; provide one-touch cycle selection**
- Panel displays operating instructions, prices, cycle time remaining countdown and more
- Self-diagnostics help pinpoint problems to reduce service costs and downtime
- Optional electronic Accu Trac® audit system helps guard against revenue loss

#### Payment Options

- Single Computer Trac® control with single coin-drop for both units - easy to program; saves time
- One convenient waist-high coin box for both pockets - holds as much as two to save collection time
- **Coin-drop prevents tampering** - sensor detects and rejects most counterfeit coins
- Dual coin-drop compatible (quarter/dollar)
- Debit card-compatible controls
- Tough armored coin vault resists tampering

#### Cycle Options

- Whites and Colors cycle
- Permanent Press cycle
- Delicates cycle
- Top-off feature extends drying time for heavy loads

#### Exterior

- **Fits two dryer pockets in the floor space of one**
- Reversible door hinge system for installation flexibility
- Contoured styling for ease of loading
- Windows in doors for user convenience
- Extra-large doors and drums - for quick, easy loading and unloading
- Premium porcelain-enamel top and Tri-Coat™ cabinet protection keep the unit looking like new
- **Most parts are accessible from the front** - no need to remove machine for service
- Uses two separate 4-inch vents to operate most efficiently

#### Interior

- **6.0 cu. ft. drums hold any load that fits in a Maytag® Commercial Neptune® or top-load washer**
- DuraCushion™ drum finish is chip- and scratch-resistant to withstand a lifetime of tumbling

- Durable large-capacity lint filters - just inside doors for quick, easy lint removal
- Cushioned drum suspension and permanently lubricated bearings assure smooth, quiet operation

#### **Performance**

- **220 cfm diagonal airflow** - fast and efficient drying performance
- **Faster drying** for lower energy consumption
- 24,000 Btu gas rating (7 amp) - liquid propane (LP) conversion option available
