

Seventeen position fineness selector provides wide range of grind settings

# GVX2 Burr Grinder

## Burr Grinder #GVX2

- Burr Milling System avoids overheating, preserves aroma and has a grind fineness selector
- Fineness selector has 17 positions from fine to coarse (adapted to each type of coffee maker)
- Quantity selector for 2 to 12 cups - shuts off automatically after grinding the right amount of beans
- Anti-static bean container with lid holds up to 8 oz. of ground coffee
- Special safety features - unit will not operate unless lid to bean hopper and coffee container are in place
- Cleaning brush included
- Blue illuminated on-off
- 8 oz. air tight bean hopper keeps beans fresh
