

The HD-3WXL is the newest and most innovative product in the Garner line of degaussers. The HD-3WXL erases hard drives (laptop, desktop and network up to 1.6" high) and high coercivity tape media, including all formats of LTO (1,2,3,4), SuperDLT I & II, DLT, 9940, 3590, AIT, 8mm and more, all without any adapters. With a continuous duty rating (no cooling necessary) and a 6 second cycle time, large quantities of media can be erased in a very short period of time.

HD-3WXL Operations:

The HD-3WXL is exceptionally user-friendly. Simply slide your media into the slot on the left side of the HD-3WXL and push the "Erase" button. Within six seconds your media is completely erased and will automatically slide out the right side of the HD-3WXL. It just doesn't get any easier than that!

Safeguards:

Built-in safeguards check the stored power before each erase cycle ensuring complete erasure every time. A field strength meter, audible tones and lighted push buttons report the status of the HD-3WXL to the operator.

Auto Mode:

When erasing large quantities of media, the HD-3WXL can be placed in auto mode. The auto mode feature automatically cycles the HD-3WXL eliminating the need for the user to press the "Erase" button each time. The user simply places the media in the HD-3WXL when the green "Ready" light illuminates. The HD-3WXL will automatically erase the media and release the media down the exit slide.

SPECIFICATIONS	
Power Supply	120V ±5%, 50/60 Hz - Standard
Power Consumption	Under standby 0.2A While charging 15.0A < 1 second At the time of ERASE 0.5A
Degausser System	Capacitive Discharge
Duty Cycle	Continuous
Cycle Time	6 seconds first hard drive, 12 second cycle
Magnetic Field	9,000 Oe, .9 Tesla
Max. Media Size	6.75 in. (W) x 4.5 in. (H) x 1.66 in. (D)
Erasing Area Size	6.75 in. (W) x 4.5 in. (H) x 1.66 in. (D)

Degauss vs. Overwrite:

The HD-3WXL produces an erasing field many times stronger than the erasing fields produced by the read/write heads in hard drives and tape drives. The field strength along with the encompassing magnetic field ensure the data is no longer recoverable by computer or laboratory attacks. Since the HD-3WXL does not rely on software, the HD-3WXL will also completely and permanently erase failed and damaged hard drives regardless of the operating system or interface.

Government Mandates:

The HD-3WXL will assist you in meeting compliance standards for government mandates requiring complete elimination of sensitive information stored on magnetic media prior to re-use or disposal including:

- **PCI DSS** (Payment Card Industry) Data Security Standard
- **NIST** (National Institute of Standards and Technology) Guidelines for Media Sanitization
- **NIST SP 800-36**
- **NIST SP 800-88**
- **HIPAA** (Health Information Portability and Accountability Act)
- **PIPEDA** (Personal Information Protection and Electronic Documents Act)
- **GLBA** (Gramm-Leach-Bliley Act)
- **California Senate Bill 1386**

Erasure Verification Tests:

Hard drives erased with the HD-3WXL have been tested & verified by hard drive manufacturers, information recovery companies, private and governmental forensic laboratories which independently confirmed no data was recoverable.

SPECIFICATIONS	
Media	Hard drives up to 1.66" high including full height, standard and laptop drives, tape cartridges including DLT, LTO, 3590, 8mm and more.
Temperature	41°F - 104°F (5°C - 40°C)
Humidity	10%H - 40%H (without condensation)
Weight	HD-3WXL: 75 lbs. (25 Kg) Shipping: 95 lbs. (37.64 Kg)
Size	L x W x H inches. 12.25 x 13.125 x 18.75 in. (w/o slide) 12.25 x 22.625 x 18.75 (w/slide)
Warranty	1 Year Factory Warranty Standard, Optional 3 Year Factory Warranty available.

Note: Hard Drives and some tapes are not reusable after having been erased with the HD-3WXL.
