

## **OblITERator 2.0 20,000 Gauss Degausser** **Hard Drive and Magnetic Media Degausser**

The OblITERator 2.0 20,000 Gauss Degausser for Computer Hard Drives and High Oersted Magnetic Media is a new patented degausser engineered to erase various forms of high-Oersted computer hard drives and tape cartridges.

Its Effective Magnetic Field (EMF) of 2 Tesla or 20,000 gauss is the most powerful commercial degausser currently available on the market within its class. It's rated to erase computer hard drives and magnetic media up to 6500 Oersted and will erase any media that fits into the input slot.

### **Media Erased:**

- The OblITERator's 20,000 gauss rating is powerful enough to erase all data on any computer tape or hard drive up to 6,500 Oersteds and with maximum physical dimensions of less than 6" x 4" x 1"
- Guaranteed to degauss electronic data stored on computer hard drives with densities less than 3 terabytes
- Compliant with Many Government Mandates for the Erasure of Electronic Data

### **Features:**

- Price-Competitive, Top Power Degausser
- Complies with a Variety of Government Mandates for the Erasure of Classified Electronic Data
- Latest Technology on the Market
- Erases All of the Latest Media
- Made in the USA
- Very Simple Input Slide Operation
- 60 Second Cycle Time
- Continuous Duty
- Convenient Table-Top or Floor Operation
- Deployable with Hard Transportation Case

**Obliterater 2.0**  
**20,000 Gauss**  
**Degausser**

### **Specifications:**

Dimensions: 10" W x 26" L x 19" H  
(254 x 660.4 x 485 mm)

Weight: 75 Lbs. (25 kg)

Power: 120 V @ 8 Amp  
240 V @ 4 Amp

Duty Cycle: Continuous

Degauss Field: 20,000 Gauss

**90 Day Warranty Included**

**One Year Extended Warranty Optional**
