

Free Mapping to go with your Freedom keychain GPS

Yahoo 2 GO Find practically anything around you, instantly **Audiovox, BlackBerry, Dash, HTC, LG, Motorola, Nokia, Palm, Samsung.** <http://mobile.yahoo.com/go/local#happening>

Like a car navigation system, Yahoo! Go knows where you are and can help you easily locate what you're looking for in your area. It gives you fast* access to the best local index and detailed listing information available. What's the word in your city, or any city, today? Yahoo! Go's "Today" feature serves up a digest of what's happening in your town today—local news and weather, traffic updates and more. It also tells you the hottest events going on in your area. It's like having your own local news team at your disposal wherever you go.

Your guide to what's going on in San Francisco. Get where you're going more easily with Yahoo! Go makes it a snap to find where you're going. Its maps are interactive, so you can scroll around and zoom in or out—even switch to satellite view. If you'd like to be guided there, Yahoo! Go displays the route and offers turn-by-turn driving directions. You even get a current traffic report to avoid trouble spots.

Take the power of Google Maps with you on your mobile phone. Windows, Palm and BlackBerry

- Real-time traffic** — See where the congestion is and estimate delays in over 30 major US metropolitan areas.
- Detailed directions** — Whether you plan to walk or drive, your route is displayed on the map itself, together with step by step directions.
- Integrated search results** — Local business locations and contact information appear all in one place, integrated on your map.
- Maps are easily moved** — Interactive maps let you zoom in or out, and move in all directions so that you can orient yourself visually.
- Satellite imagery** — Get a bird's eye view of your desired location. (It is like you are there, we swear.)
- Windows Mobile users:** [Download the CAB](#) and ActiveSync **Palm OS users:** [Download the prc](#) and HotSync
- IT admins:** Google Maps on the [Blackberry Enterprise Server](#)

Free Mapping to go with your Freedom keychain GPS

Free mapping for Nokia Mobiles <http://smart2go.com/en/help/maploader>

Nokia Free mapping for: Symbian - E61, E61i, E65, E90, N70, N72, N73, N76, N93i, N95, N6110, N6120. plus a version for Windows Mobile 05

Nokia has announced that it is making its smart2go mapping and navigation platform available free of charge. The smart2go platform allows for mapping and routing in over 150 countries and has support for full turn-by-turn satellite navigation in 30 countries. Nokia is offering the app for no charge on selected Nokia S60 and Windows Mobile 5.0 devices; it plans to roll out support for most of the major mobile OS platforms later. It will also preinstall the smart2go mapping and navigation app on all future Nokia Nseries phones under the name 'Nokia Maps'.

Free maps covering 150 countries will also be made available, all with points-of-interest databases. These can be downloaded at will on to memory cards. The platform contains over 15m POIs and users can send specific locations to friends as a multimedia message, an email, or via Bluetooth or infrared mail. They can also send map excerpts and routes or save map screen shots to the gallery on the device.
