Frequently Asked Questions & Answers:

1. So...what happens after I send you guys my rebate? Please allow 7~10 days for the mail to reach us. Once we receive your mail, we scan the rebate BAR CODE on the outside of the envelope and will notify you by e-mail that we have received it. Then it is queued in the processing center and the normal waiting time is 12 weeks.
2. What if I forgot to attach the rebate BAR CODE to my envelope? Well...in that case we will have received your mail, but we will not know your e-mail address (and other information you entered online). We will not be able to notify you by e-mail that we received your mail. We do however, continue to process your rebate. The day that we have opened your mail, we will then know your e-mail address and be able to notify you by e-mail.
3. How long is the waiting time? All mails received are queued in the processing center and normal waiting time is 12 weeks. During this time, please understand we are not able to manually check each mail and provide rebate status on individual basis due to the large amount of mail that we receive every day.
4. So at the end of the 12th week...what happens? We print & mail the check on the same day that your rebate is processed. And we e-mail you about it too. You will be able to see that online as well.
