### SUGGESTED METHODS OF INSTALLATION

**CEILING TYPE HANGER**

**WALL TYPE HANGER**

**CEILING MOUNT WITHOUT HANGERS**

Screen case is placed flush with the wall and ceiling and held in position by moulding securely attached to the wall.

**RECESSED ABOVE CEILING**

Other methods of installation will suggest themselves in new buildings where it would be an easy matter to provide a recess for the screen to conceal it when not in use.  
Do not seal in—allow access.

**WALL OR CEILING MOUNT WITH HANGERS**

Wall type hangers and ceiling type hangers are standard equipment. One set is supplied with each screen. Useful for recessed installations.

**FOR EXPOSED INSTALLATION**

If the screen is to be mounted in an exposed position, it may be covered with finished plywood, veneer, paneling, plastic wall covering or a valance.
