

Cushioned Cotton Support Socks

HealthyLegs®

Soft comfortable cushioned sole, heel and toes that protects the feet, and helps to absorb impact upon walking and running.

DIABETIC FRIENDLY*

Low profile toe seams that reduce friction and irritation, especially during walking and running.

*diabetics without arterial insufficiency and neuropathy.

Soft, knit-in top band with high stretchability keeps product from “pinching legs”

15-20mmHg Moderate Gradient Compression
