

the art of style

Our trend-setting team of designers continually introduces new colors, new styles, and new fabrics, because we know it's not enough that our products provide the most effective Robotic Massage® on the market. To deserve a place in your environment, our chairs must be great looking as well as therapeutic.

It's our way of saying we understand what you want.

the science of comfort

Everyone likes to feel good. At **Interactive Health®**, it's all we think about.

Our team of scientists, researchers, and engineers analyze the treatments used by massage therapists, chiropractors, and physicians, and turn those techniques into the sophisticated **Human Touch Technology®** mechanisms that animate our family of chairs. By building on our decades of experience as the world leader in massage technology, we consistently produce the most advanced Robotic Massage® systems ever devised.

Specifications

Style:	HT-110	Chair Reclined Dimensions:	54"L x 28.5"W x 32"H
Product Description:	Human Touch™ Robotic Massage® Chair	Chair Upright Dimensions:	40"L x 28.5"W x 44"H
Volt AC:	120	Weight Product Lbs:	135 lbs
AMP/Watt:	75/90	Master Carton Quantity:	1 Unit
Regulatory Certification:	cETL	Master Carton Dimension :	43.4"L x 30.4"W x 29.6"H
Recline Angle:	120-170 Degrees	Master Carton Cube:	22.6'
Massage Head Storage:	Top	Weight Shipping Lbs:	156 lbs
Automatic Timer Shut-Off:	15 minutes	Container Quantity (40 Foot):	96 Units
Total Massage Stroke Length:	20"	Truckload Quantity (53 Foot):	126 Units
Upholstery Material:	Leather Match Vinyl	Shipping Method:	Common Carrier
Armrests Material:	Leather Match Vinyl	Shipped From:	FOB Long Beach CA, USA
Massage Robot:	Human Touch Technology® Robotic Massage® Quad Rollers	Country of Origin:	P.R.C.
		Warranty:	1 Year Limited Warranty
		Included:	Massage Softening Pad, Use and Care Manual

experience the human touch™

meet your personal masseuse

Beneath this luxurious leather match are the "hands" of a trained massage professional – ready to provide you with a customized back, leg, and foot massage at the touch of a button.

You have to feel it to believe it.

Our multi-patent **Human Touch Technology**® massage system so closely replicates the therapeutic techniques used by back and spinal care professionals that it is the preferred technology of the American College of Chiropractic Orthopedists. It is designed to follow the natural contour of your spine, and move three-dimensionally in four different modes.

Your 24/7 Personal Robotic Masseuse

HT-110 does what you tell it, from the ergonomic headrest to the rotating calf and foot massager. You customize each movement to your own preference. The remote controller has an individual programmed massage session lasting 15 minutes.

Discover the ultimate in Robotic Massage®, wrapped up in a stylish, superior quality exterior that is virtually maintenance free.

Rotating Multi-Speed Foot and Calf Massager
Feels like strong hands providing a powerful three-dimensional massage for your calves or feet.

the science of comfort.

Human Touch Technology® starts with a patented mechanism that works like "wrists and arms." We added "hands"-- massage rollers that move three-dimensionally on a straight track. The result is a Robotic Massage® that feels remarkably human.

Rolling: Feels like the gentle hands of a massage therapist, pressing firmly on one side of your spine, then the other. It relieves tension and loosens the muscles to prepare your back for deeper massage.

Kneading: Feels like thumbs pressing firmly in a circular motion on both sides of the spine. This therapeutic motion goes deeper, lifting and stretching muscles to improve circulation.

Compression: (HTT™ exclusive) Feels like the heels of a professional therapist's hands firmly pushing on muscles alongside your spine, and inward toward the spine itself. This mode aids in improving mobility and posture.

Percussion: Feels like fists or the edge of hands rapidly tapping on your back muscles. This is the deep muscle therapy popular in sports medicine. It flexes spinal joints, relieves pressure, and invigorates your entire back.

Functions

Rolling:	3 speeds
Kneading:	2 speeds
Compression:	2 speeds
Percussion:	2 speeds
Range Controls:	2 options
Spot:	Stationary massage in kneading or compression function
Partial:	Partial massage stroke 3" up & down for kneading or compression
Adjust Manual Up/Down:	Manually moves massage rollers to desired location for kneading, compression and percussion
Programmed Massage Session:	Invigorating 15 minute pre-programmed massage session
Backrest:	Power recline
Calf & Foot Massager:	2 speeds, 1 program
Stop/Auto Park:	Stops all massage functions and parks the massage rollers in their highest position
