(OceanMaster liferafts are available in High-Drop and Davit Launched models.)

*† Statement does not include OceanMaster 4. This raft comes with A or B Pack. OceanMaster 4 is a non-SOLAS liferaft.

Revere's OceanMaster liferafts are renowned for their uncompromising quality and design sophistication. In addition to meeting the requirements of the International Convention of the Safety of Life at Sea (SOLAS) 1983, as amended, the OceanMaster is manufactured to NATO AQAP 1 quality standard and holds approvals from most major international marine authorities, including the United States Coast Guard and UK Department of Trade. Today, there are over 47,000 OceanMaster liferafts in service on commercial, naval and fishing vessels worldwide. Meeting the needs of all types of commercial craft, the OceanMaster range consists of two models - standard throw over and davit-launched. These rafts come in a variety of sizes accommodating 4, 6, 8, 10, 12, 16, 20 and 25 persons. Every raft comes packed in a weatherproof fiberglass container to keep the raft drier and better protected for longer service life. The container is secured to a galvanized steel deck-mounted stowage cradle with a hydrostatic release, allowing for both manual and automatic launching. A space-saving "low-profile" fiberglass container and aluminum cradle assembly is also available for 4, 6 and 8 person.
