UV and IR Light Sources & Instrumentation

professional products for demanding people

Lamp Express carries a complete line of ultraviolet and infrared light sources and instrumentation.

Our BLUETEC lamps are available for a wide array of machines and applications and with the help of our extensive database, we are able to find the right replacement lamp for your equipment.

Our UV & IR bulbs are made to the highest quality standards, to our design specifications, by leading manufacturers.

We also offer full OEM design and manufacturing services, to assist OEM's in creating the perfect lamp for new projects.

BLUETEC lamps are successfully being used for many applications such as the curing of inks, resins and adhesives, exposure and curing of printed circuit boards, label printing, offset, screen and flexo printing and many more.

All of our lamps are designed for maximum actinic output and minimal power loss over time to achieve exceptional longevity.

Longer operating times between lamp changes, paired with first class curing and exposure results, do minimize down-time, reduce waste and do lower your overall operating costs, for maximum customer satisfaction.

Thousands of customers rely on BLUETEC lamps every day - for a reason. It's not only the product that makes BLUETEC lamps so successful its also the concept and the team behind it.

We value our customers and we try hard to keep our reputation for being a reliable source for quality lamps and instrumentation.

Just visit our web site for in-depth information about our products and services. Our secure web store makes it exceptionally easy to order our products on-line.
