

# Thermojetics® Herbal Concentrate

## A refreshing and exhilarating herbal beverage for good health.

For centuries, people have enjoyed the goodness of a cup of hot or cold flavorful tea. One of the world's most popular beverages, tea can soothe, refresh, stimulate, calm, enlighten, promote happiness and health.

But tea is much more than a refreshing beverage and between-meal snack. In fact, green tea, a key element in Herbal Concentrate, can help protect the body from free radicals, help to reduce the risk of heart disease, cancer and ulcers in addition to helping you to lose unwanted pounds.

Research has found that green tea, one of the oldest beverages known to mankind, may speed up calorie and fat burning in addition to playing a key role in the control of body composition. Researchers at the University of Geneva in Switzerland studied 10 healthy young men for six weeks and in the end found that the men taking the green-tea extract burned more calories than the other men. Researchers believe that compounds in green tea called flavonoids may change how the body uses a hormone called norepinephrine, which speeds up the rate calories are burned.

Add Herbal Concentrate to your day and you'll automatically add green tea to your diet!

Tea can also help you reach your weight-loss goals. And there's one tea that does just that in an extremely effective manner. Combining ancient herbal wisdom with modern-day ingenuity, Herbalife has carefully formulated Thermojetics® Herbal Concentrate. Available in four flavors—Original, Lemon, Peach and Raspberry—this delicious-tasting tea is an ideal between-meal treat that energizes and satisfies. It will calm your cravings so you don't turn to calorie-rich snacks that can throw your weight-loss plans off track. Thermojetics® Herbal Concentrate isn't just for dieters. It's for anyone who wants to indulge their tastebuds in a refreshing beverage that's good for just about every body.

## Discussion Points

- Tea time: Do you like your tea in the morning, noon or at night? Thermojetics® Herbal Concentrate tastes so good, you may want to sip it all day long...and you can! This savory tea can be enjoyed anytime, which many find is all the time.
- A delicious introduction to Herbalife: Impress customers and prospects by serving them a hot cup or cold glass of Lemon, Peach, Raspberry or Original Herbal Concentrate. Within minutes, they'll feel the difference of this energizing tea.
- Combine with other products: Thermojetics® Herbal Concentrate can be used in conjunction with the Thermojetics® Weight-Management Programs and Herbalife's entire line of nutritional products. Or, mix some tea into your Formula 1 or Thermojetics® High-Protein, Low-Carb shake.

## Did You Know?

Green tea is one of the most ancient and, next to water, the most widely consumed beverages in the world. This humble drink has been highly valued for centuries because of its health-enhancing benefits. It is rich in antioxidant properties, which can help protect the body from the harmful effects of free radicals. Thermojetics® Herbal Concentrate contains superior-quality green tea, so you can be sure you are getting the best in every sip.
