

P100 Particulate Filters

Issue Date 6/01/00

3M™ P100 Particulate Filters: Highest filtration efficiency that is simple to understand and easy to use.

This is how 3M P100 filters can help you:

Convenience

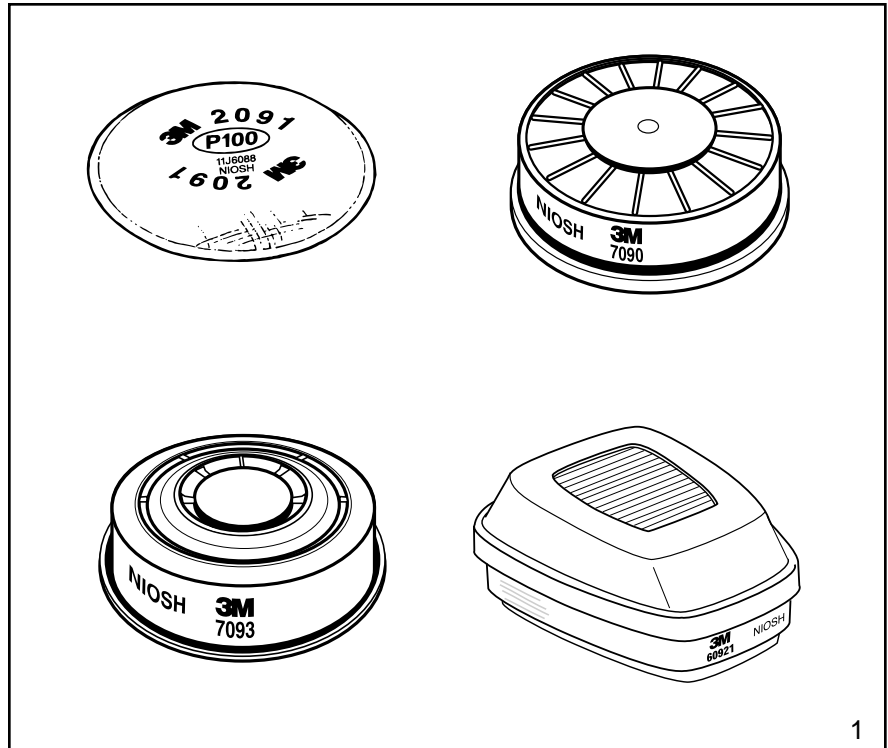

P100 filters do not have time and use restrictions. They are well suited for a wide range of oil and non-oil based particulate contaminants. As a result, filter selection is greatly simplified and use is made easier.

Choice

3M provides a variety of P100 filters to address the different requirements of a broad range of applications. 3M P100 filter construction encompasses both self supporting filters and plastic encased filters. The attachment to the facepieces offers the alternative of a bayonet system or a retainer system.

Versatility

3M P100 filters can be used with a variety of half face and full facepieces. This makes the compliance with the regulations easy while allowing for individual facepiece preferences.

3M P100 filters help provide protection which is easy to understand, to use and to implement.

Comfort

3M P100 filter design helps provide workers with an improved field of vision. The construction is lightweight for enhanced comfort, longer wear and better acceptance.

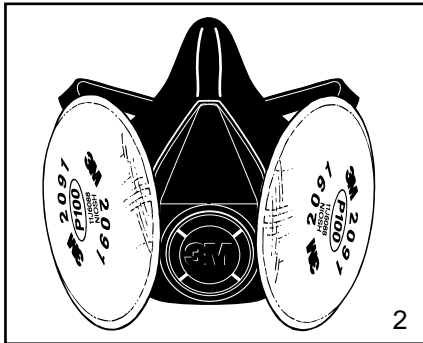

Highest filter efficiency

3M P100 filters pass NIOSH's 42 CFR 84 most rigorous filter test criteria by providing a minimum 99.97% filter efficiency.

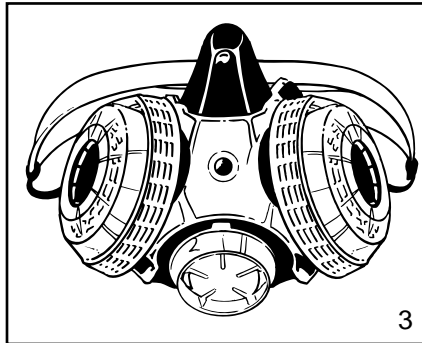

▲ WARNING

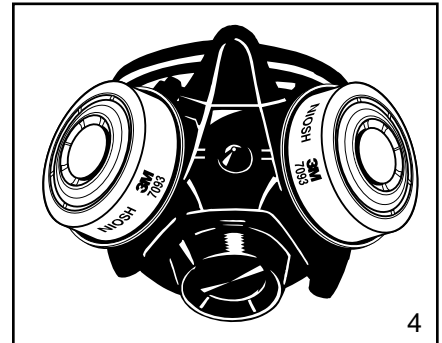

These filters help reduce exposure to certain airborne contaminants. Misuse may result in sickness or death. Before use, the wearer must read and understand *User Instructions* provided as a part of product packaging. Time use limitations may apply. For proper use see supervisor, respirator packaging, or call 3M OH&ESD Technical Service: 1-800-243-4630. In Canada, call 1-800-265-1840, ext. 6137.

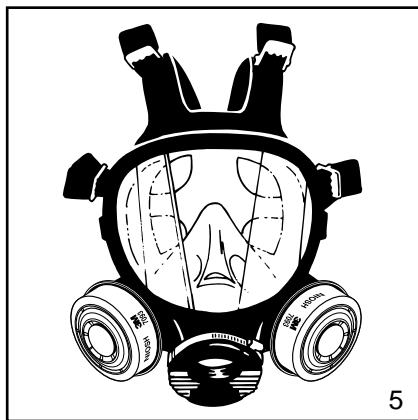

6000 facepiece with 2091 P100 filters.

7X00 facepiece with 7090 P100 filters.

700X facepiece with 7093 P100 filters.

7800 facepiece with 7093 P100 filters.

Please contact your local 3M distributor to place an order. To determine the location of the 3M distributor nearest you, call 1-800-328-1667. In Canada call 800-265-1840 extension 6137.
