

Specialty Disposable Particulates

Gerson disposable respirators are produced from state-of-the-art filtration media, electrostatically charged to enhance filtration and provide low breathing resistance for more comfortable use. The double-shell construction is collapse resistant and will withstand hot humid conditions for extended product life and economy.

2767 N95 Economy Welding Respirator

Special depth filter provides a high loading capacity for metal fumes. Ensures longer life and easier breathing. Flame-retardant outer shell. New LPD (low pressure drop) exhalation valve for easy breathing and increased worker comfort. Exclusive comfort-cushioned foam nose seal.*

Specially contoured nose clip enhances fit. Stapled, latex-free headstraps add strength and performance.

#082767: 10 resp./box, 10 boxes/case, 100 units

2940 P95 Particulate Respirator

NIOSH P95 approved for all oil and solid particulates. L.P.D. (low pressure drop) exhalation valve for easier breathing and cooler feel. Soft, closed cell foam full face seal provides exceptional comfort.* Flame-retardant outer shell. Moisture-resistant for durability and longer life. Stapled, latex-free head-straps for durability.

#082940: 10 resp./box, 10 boxes/case 100 units

*OSHA regulations require fit-testing of respirators prior to use in order to determine if proper fit is attainable. Individual facial features may prevent proper fit.

Disposable Particulate Respirators

2040 N100 Particulate Respirator

For exposure to OSHA substance specific particulates: lead, cadmium, arsenic, 4, 4' methylenedianiline (MDA), metal fumes from from welding, brazing and metal cutting. Used in pharmaceutical manufacturing and protection against biological agents.

Has flame retardant outer shell, heavy duty adjustable straps and surround foam seal. Low breathing resistance exhalation valve for cooler more comfortable breathing.

#082040: 6 respirators/box, 5 boxes/case, 30 units

1840 R95 Particulate Respirator

Has flame retardant outer shell recommended for welding. Special depth filter provides high loading capacity for metal fumes without increasing breathing resistance. R95 filter for use in environments containing oil aerosols. Heavy duty adjustable headstraps and soft, closed cell foam face seal cushion offer increased comfort and fit.*

#081840: 5 resp./bag, 20 bags/case 100 units

*OSHA regulations require fit-testing of respirators prior to use in order to determine if proper fit is attainable. Individual facial features may prevent proper fit.

1501 Nuisance Dust Mask

To reduce the irritating effects from non-toxic particles such as pollen, common household dust and cut grass. Adjustable nosepiece.

#061501: 50 masks/box, 12 boxes/case, 600 units.

Note: mask is for comfort only. It is NOT a respirator and does NOT provide lung protection.
