

Interesting Facts About the DX Crossover Bike

Did you know.....?

- ◆ The DX can be **folded in under 30 seconds** from full size down to an approximate compact size of **3'x3'x1'** **without the use of tools**, and it **weighs 29 pounds**.
- ◆ The DX Crossover Bike is superior to other folding bikes because it is **full size, with 26" wheels** and has a rigid aluminum chromoly frame, as well as many other standard parts. This makes for easy service and repair.
- ◆ The **patented Folding Integrated Technology™ (FIT)**, developed by Montague, allows the DX to fold without breaking or cutting any of the frame tubes. This preserves the structural integrity and inherent strength of the bicycle frame design and geometry.
- ◆ The DX is **convenient** and **easy to store** in a closet, vehicle, plane or boat. Many Montague bike owners find their bikes **easy to travel with** on trains and commercial airline flights.
- ◆ The DX arrives in a box, fully tuned and **ready to ride**. Kickstands are available upon request as are folding pedals which take 4 inches off the width of the folded bike.
- ◆ When traveling by commercial plane, the \$90 bike fee can be avoided by packing and checking the DX in the **Airliner Hard Case** for protected and safe shipping. **A soft carrying case** is also a perfect accessory, simply fold the bike, zip up the bag, and carry the DX comfortably with the padded shoulder strap.
- ◆ The DX Crossover Bike is sold through our **dealer network** worldwide or directly to customers either via the **Internet** (www.montaguebikes.com), over the **phone** (800-736-5348), or via **fax** (617-491-7207).
