

Even More About Nose Flutes

How A Nose Flute Works

If you really admire complexity, here are some comments from a report from Tufts University: A nose flute "is a pipe closed at one end. The medium is a standing wave of air within the cavity of the mouth and the lips form the open end. Making the mouth larger or smaller, which makes the resonant cavity longer or shorter, changes the pitch to be lower or higher, respectively."

It's not your mouth any more - it's a "variable resonance chamber." I'll bet you never thought of it that way, did you?

How about Available Colors?

If you would like to request a specific color or colors, please do so on the special instructions box you will encounter during the ordering process, but please note that although we cannot guarantee that we can accommodate you, we'll try our best to do so. Like life, we do not always have all the colors shown all the time, so try to practice being flexible.

How We Package Our Nose Flutes

At our prices, we ship in bulk - that is, we include nose flutes, instructions, and bags, and you get to do the packaging - easily done while watching television or listening to a campaign speech.

About Shipping Nose Flutes

If you order under two dozen, please consider selecting Priority Mail as your shipping method or Air Letter Post if you live outside the USA - we generally charge far less than the computer tells you because the shipments are so low in weight (we do use Delivery Confirmation to keep the Post Office on its toes). But if you want UPS, then UPS it will be. Up to you, and we're just trying to save you a little money.

Nose Flutes Non-Return Policy

Because of health reasons, nose flutes are NOT returnable. If you have a need to hand wash them, that's OK, and they'll might survive a trip through the dishwasher on the upper rack, but whether the dishwasher will survive, much less the nose flutes, we do not know and don't recommend it.

Custom Printing on The Back Of the Instruction Card

We are now able to offer custom printing on the back of our instruction card...perfect for that celebration, reunion, or that special event. Minimum purchase of 100 nose flutes required - email us for more information (info@nashcompany.com)

The card size is 3 11/16" by 2 5/8" and can be formatted horizontally or vertically. Costs vary depending on quantity, design, and so on, but to guide you, 100 cards printed in black would cost \$17.50 and would require five working days before shipping. Call or email us for more information.
