# TABLE OF CONTENTS

1. **EXECUTIVE SUMMARY** ......................................................................................................................... 30

   1.1. **NBJ’S SUPPLEMENT BUSINESS REPORT 2007**:  THE NUTRITION INDUSTRY PATIENT .......................... 30

   1.1.1. Supplements Up 5.4% in 2006 ................................................................. 30

   1.1.2. Lessons of History .................................................................. 31

   1.1.3. Sales Channels ....................................................................... 32

   1.1.4. Industry Cycles ......................................................................... 33

   1.1.5. Growth Forecast Conservatively At 4-6%: Consumer Education Is Key ........................................ 34

   1.1.7. Supplements vs. OTC vs. Prescription Products .................................................. 36

1.2. **ACKNOWLEDGEMENTS** .................................................................................................................... 37

2. **SUPPLEMENT OVERVIEW** .................................................................................................................. 39

   2.1. **NUTRITION INDUSTRY & SUPPLEMENT DATA OVERVIEW** ............................................................ 40

   2.1.1. Supplements Up 5%............................................................................. 41

   2.1.2. Nutrition Industry & Supplement Data Detail 1997-2006 ......... 43

   2.1.4. The Impact of the Media on Supplement Sales .............................................. 62

   2.1.5. 2006 in Review: Supplements up 5% ........................................... 64

   2.1.6. 2004 in Review: Supplements Turn in a Checkered Performance ........ 68

   2.1.7. Historical & Forecast Annual Supplement Growth Trends, 1990-2013 ....................... 69

   2.1.8. NBJ Growth Forecasts ........................................................................ 77

   2.1.9. Discussion of Growth Factors ........................................................................... 78

   2.1.11. Lines Blur Between Supplement, OTC and Prescription Products .............................. 86

   2.1.12. Customers Scoop Up More Powdered Supplements ........................................ 87

2.2. **REGULATORY SNAPSHOT** ................................................................................................................. 90

   2.2.1. Power Shift ................................................................................... 90

   2.2.2. Healthcare Reforms Proposed ...................................................... 91

   2.2.3. Supplements Industry Asked To Police Its Own ........................................ 93

2.3. **CONSUMER USAGE OF SUPPLEMENTS** .......................................................................................... 95

2.4. **GROWTH TRENDS IN SUPPLEMENT SALES BY PRODUCT CATEGORY** .................................................. 98

2.5. **SALES CHANNEL TRENDS, 1997-2006** ......................................................................................... 102

2.6. **NBJ’S TOP SUPPLEMENT COMPANIES IN 2006** .............................................................................. 115

2.7. **TOP SUPPLEMENTS, 2000-2006** ....................................................................................................... 119

   2.7.1. Experts Predict Popular Supplements ................................................. 120

   2.7.2. Hot Supplements in 2005 ................................................................. 121

2.8. **CONDITION-SPECIFIC ANALYSIS** ...................................................................................................... 124

2.9. **M&A IN THE SUPPLEMENT INDUSTRY** ............................................................................................. 125

   2.9.1. M&A Activity Picks Up Speed in 2006-7 ........................................... 125

   2.9.2. Multinationals Active ..................................................................... 125

   2.9.3. Acquisition Warhorses ............................................................... 126

   2.9.4. Supply Companies Target Specialty Ingredients........................................ 127

   2.9.5. Strategic Moves in Raw Materials ...................................................... 127

   2.9.6. Dietary Supplements ................................................................... 127

   2.9.7. HBP/NBJ Deal-of-the-Year Awards Reflect Prosperity in the Industry .................. 128

   2.9.8. Supplement Deals Robust In 2005 .................................................. 128

   2.9.9. Private Equity Active in Food and Beverages ........................................ 130

   2.9.10. Activity Pending in Retail Channel ................................................. 130

   2.9.11. Whole Foods-Wild Oats Merger Dodges FTC Antitrust Measures .................... 130

   2.9.12. International Activity: Acquisitions and Expansions ....................... 134

   2.9.13. Robust Forecast for Private Equity Activity in the 2006 Health & Wellness Sector ... 134

   2.9.14. Big Deals Punctuate Last 5 Years of Activity ........................................ 137
3. VITAMINS .............................................................................................................................................................. 140

3.1. VITAMINS DATA OVERVIEW .................................................................................................................................. 140
  3.1.1. Vitamins: Good ’D’ay Sunshine; C Prices Swing Upwards ................................................................................. 140
  3.1.2. Vitamin Sales in 2005 ........................................................................................................................................... 145

3.2. VITAMIN TRENDS ..................................................................................................................................................... 147
  3.2.1. Impact of the Media ............................................................................................................................................... 147
  3.2.2. Shifts in Delivery Forms ..................................................................................................................................... 150
  3.2.3. Liquid Assets: Drinkable Vitamins Fuel Profits and Growth ............................................................................. 151
  3.2.4. Suppliers Think Functional Foods are Limiting the Growth of Supplements ............................................. 154

3.3. VITAMIN SUBCATEGORY SALES .................................................................................................................................. 157
  3.3.1. Multivitamins ....................................................................................................................................................... 157
  3.3.2. Profiles: Leading Players Pursue Strategies For Success in Marketing Multivitamins ................................. 157
  3.3.3. 2004 Trend Becomes Fad: Low-Carb Multivitamins .......................................................................................... 165
  3.3.4. Vitamin C ......................................................................................................................................................... 166
  3.3.5. Vitamin E ......................................................................................................................................................... 168
  3.3.6. Has Vitamin E Turned the Corner? ..................................................................................................................... 169
  3.3.7. Mass Market Malaise: Negative News on E Impacts Letter Vitamin Sales ...................................................... 171
  3.3.8. Positives for Vitamin E & Antioxidants ............................................................................................................. 172
  3.3.9. Vitamin B ......................................................................................................................................................... 173
  3.3.10. New Science Boosts B Vitamin Sales .............................................................................................................. 174
  3.3.11. Vitamin A / Beta Carotene ............................................................................................................................... 175
  3.3.12. Sales Skyrocket For Vitamin D, the New Media Darling .................................................................................. 176
  3.3.13. Antioxidants .................................................................................................................................................... 177
  3.3.14. Other Vitamins (Vitamin D, H, Others) ............................................................................................................ 180
  3.3.15. K — The Latest Addition To The Vitamin Alphabet Soup ............................................................................ 182
  3.3.16. Multiple Multis Can Please Picky Kids ........................................................................................................... 183

3.4. VITAMIN SALES BY CHANNEL .................................................................................................................................. 187
  3.4.1. Reality Dose: Vitamin Chain Stores Report Strong Growth ............................................................................... 189
  3.4.2. Mass Market ....................................................................................................................................................... 191
  3.4.3. Direct, Natural Channels Fare Better .............................................................................................................. 192
  3.4.4. Mass Market: Costco’s Perspective on Vitamins ............................................................................................. 197
  3.4.5. Vitamin Price Analysis in Mass Market FDM .................................................................................................. 199
  3.4.6. Vitamin Sales Data in Natural Health Food Channel ......................................................................................... 200

3.5. SUPPLY SNAPSHOT: VITAMIN CAPACITY SHIFTS TO CHINA; VITAMIN E SUPPLIES PILE UP ........ 201
  3.5.1. Deficiency In Vitamin Supply Drives Up Cost .................................................................................................. 202

3.6. VITAMIN CONSUMER ANALYSIS .............................................................................................................................. 204

3.7. CONDITIONS: VITAMIN BRANDS IN MASS BANKING ON CONDITIONS ......................................................... 207
  3.7.1. Growth in Cold, Flu Preventatives ..................................................................................................................... 208
  3.7.2. Debate Over Deficiencies, Dosages .................................................................................................................. 208

3.8. VITAMIN MARKET SHARES AND TOP COMPANIES ................................................................................................. 210
  3.8.1. Consolidation: The Big Get Bigger .................................................................................................................. 210

3.9. SELECTED COMPANY PROFILES .............................................................................................................................. 216
  3.9.1. Supplier DSM Reorganizing to Focus On Health Nutrition Ingredients ........................................................... 216
  3.9.2. IdeaSphere To Market Weil Supplements, Retains Focus on Natural Channel ............................................ 217
  3.9.3. Innovation Spurs Sales for Natural Retail Brand Rainbow Light ........................................................................ 218
  3.9.4. Natrol Inc.: Meet The New Bos ......................................................................................................................... 219

4. HERBS & BOTANICALS ................................................................................................................................................... 227

4.1. HERBAL OVERVIEW & DATA SUMMARY ................................................................................................................. 227
  4.1.1. Herbs & Botanicals Lifted By Superfruits ........................................................................................................... 227
5. SPORTS SUPPLEMENTS

1. SPORTS SUPPLEMENTS DATA OVERVIEW

1.1. Hard-Core Beverages Lead Growth in Sports Supplements in 2005

1.2. Sports Nutrition: Melting Pot Of Innovation

1.3. Strategy of Crossover to Mass Still Debated

1.4. Risks of Going Mainstream

1.5. Pricing Pressures Cross Channels

2. SPORTS NUTRITION SUPPLEMENT CHANNEL DATA

2.1. Retail Profile: Max Muscle

2.2. Fitness & Gym Channel

2.3. Cytosport

2.4. Bally Total Fitness

2.5. Europa Sports

2.6. Club Operators Tailor Offerings to Match Demographics

2.7. Powerhouse Spins Off Nutrition Distributor

3. SPORTS NUTRITION SUPPLEMENT CONSUMER DATA

3.1. Consumer Use of Herbal & Botanical Supplements

3.2. Consumer Attitudes Toward Herbal Products Improving

4. SPORTS SUPPLEMENT PRODUCTS

4.1. Comparison to Broader SNWL Category

4.2. Top Companies in Herbal & Botanical Supplements

4.3. Herbs and Weight Loss

4.4. Herbal Product Profiles

4.5. Supply Snapshot: Botanical Ingredient Suppliers See Rebound

4.6. Company Profiles

5.4. Sports Supplement Products

5.3. Sports Nutrition Supplement Consumer Data

5.2. Sports Nutrition Supplement Channel Data

5.1. Sports Supplements Data Overview

4.7. European View: Lessons From Abroad

4.6. Company Profiles

4.5. Supply Snapshot: Botanical Ingredient Suppliers See Rebound

4.4. Herbal Product Profiles

4.3. Herbs and Weight Loss

4.2. Top Companies in Herbal & Botanical Supplements

4.1. Comparison to Broader SNWL Category
1 Executive Summary

5.4.2. Nitric Oxide
5.4.3. Creatine and Protein Powder
5.4.4. Perspective on Creatine
5.4.5. Beta-Alanine—Could It Be the Next Creatine?
5.4.6. Powering Up The Market With Protein
5.4.7. Protein Not Just for Weight Lifters
5.4.8. Protein Supply Snapshot: Way Forward for Whey
5.4.9. HMB (Beta-hydroxy-beta-methylbutyrate)
5.4.10. Glutamine
5.4.11. L-Carnitine
5.4.12. Prohormones Banned: Natural Testosterone Formulas Fill Vacuum

5.5. SPORTS SUPPLEMENT COMPANIES
5.5.1. Cytosport: Rapid Growth in 2006
5.5.2. Nutrex: Staying in Specialty
5.5.3. VPX: Taking on Red Bull
5.5.4. NOW Foods
5.5.5. Wellements: Branching Out
5.5.6. Universal Nutrition’s Segmented Brands Appeal to Wide Range of Consumers
5.5.7. Stallone Enters the Sports Market With Sales Blazing

5.6. SCIENCE: EAS LEAVES A GAP IN SCIENCE LEADERSHIP
5.6.1. ISSN Provides Focus for Sports Nutrition Science

5.7. MARKETING: OCTAGON AND PREMIER MANAGEMENT DEFINE TERMS OF ENDORSEMENT

6. MINERALS
6.1. MINERALS DATA OVERVIEW 2006
6.1.1. Minerals: Food Sources Favored
6.1.2. Calcium Sales Growth Suffering From Lack Of Novelty
6.1.3. Minerals in 2005
6.1.4. 2004 Overview
6.1.5. Mineral Sales by Channel & Pricing Trends
6.2. CONSUMER USE OF MINERALS IN 2006
6.3. TOP MINERAL COMPANIES
6.3.1. Calcium Sales to Food Customers Show Robust Growth for Huber
6.3.2. Wyeth: Calcite Leads the Pack

6.4. OVERVIEW OF INDIVIDUAL MINERAL CATEGORIES
6.4.1. Calcium
6.4.2. Iron
6.4.3. Magnesium
6.4.4. Chromium
6.4.5. Zinc
6.4.6. Potassium
6.4.7. Selenium
6.4.8. Mineral Market Drivers

7. MEAL SUPPLEMENTS
7.1. MEAL SUPPLEMENT DATA OVERVIEW
7.1.1. Meal Supplement Market in 2006
7.1.2. Meal Replacement Supplement Sales by Channel

7.2. CONSUMER MEAL SUPPLEMENT USE
7.3. TOP MEAL SUPPLEMENT COMPANIES
7.3.1. Worst Is Over for Meal Replacements
7.3.2. Mass Market & Meal Replacements: A Pre-Low-Carb Era Perspective

8. SPECIALTY SUPPLEMENTS
8.1. SPECIALTY SUPPLEMENT DATA OVERVIEW
9.4. GASTROINTESTINAL HEALTH ................................................................................................................ 547
8.6. SPECIALTY SUPPLEMENT COMPANIES ................................................................................................... 499
8.5. CONSUMER USE OF SPECIALTY SUPPLEMENTS...................................................................................... 495
8.4. SPECIALTY SUPPLEMENTS IN FUNCTIONAL FOODS................................................................................ 490
8.3. CHANNEL ANALYSIS ............................................................................................................................. 481
8.2. SELECTED SPECIALTY SUPPLEMENT CATEGORIES................................................................................. 431
8.1. SPECIALITY SUPPLEMENTS IN FUNCTIONAL FOODS ............................................................................. 425
9.3.5. Women’s Brands Demand Forethought ..........................................................................................545
9.3.4. GlaxoSmithKline Conducts Science- & Compassion-Based Marketing.......................................... 544
9.3.3. Natural Oestrogen Alternatives................................................................................................. ......538
9.3.2. Wakunaga Markets Enhanced Garlic.............................................................................................. 536
9.3.1. Heart Supplements Focus on Cholesterol and Inflammation..........................................................531
9.2.7. Omega-3’s Heart Connection..........................................................................................................529
9.2.6. Heart Disease: Statin Drugs Lead Pharmaceutical Sales............................................................... 526
9.2.5. CoQ10 in 2006: Supply Catches Up with Demand .............................................................................. 525
9.2.4. CoQ10 in 2004...................................................................................................................................... 524
9.2.3. CoQ10 Sees Stable But Modest Growth in U.S. .................................................................................. 523
9.2.2. New Products To Feed Growing US Consumer Probiotics Demand ..............................................522
9.2.1. Activia Achieves Breakthrough Status in U.S. Probiotics Market................................................... 521
9.1.6. Science: The Engine and the Driver of the Supplement Industry....................................................519
9.1.5. Opportunity for OTC-Supplement Combos ...................................................................................... 518
9.1.4. Retailing: Brand Versus Condition .............................................................................................. ...517
9.1.3. Condition-Specific Market in 2005.............................................................................................. ....516
9.1.2. Condition-Specific Market in 2006............................................................................................. 515
9.1.1. Condition-Specific Market in 2005 .......................................................................................... 514
9.1. Speciality and Specialty Market in 2006 ..........................................................................................513
9.0. CONDITION SPECIFIC MARKETS ..................................................................................................512
8.6.2. Profile: Cardinal Nutrition: MSM............................................................................................... ....504
8.6.3. Profile: Spectrum Organic Products: EFAs.................................................................................... 503
8.6.1. Profile: Nordic Naturals: Fish Oils .............................................................................................. 502
8.6. Speciality Supplement Companies ................................................................................................... 499
8.5. CONSUMER USE OF SPECIALTY SUPPLEMENTS.................................................................................. 495
8.4. SPECIALTY SUPPLEMENTS IN FUNCTIONAL FOODS............................................................................. 490
8.3. CHANNEL ANALYSIS ............................................................................................................................. 481
8.2. SELECTED SPECIALTY SUPPLEMENT CATEGORIES................................................................................. 431
8.1. SPECIALITY SUPPLEMENTS IN FUNCTIONAL FOODS ............................................................................. 425
