

# BLACKOUT™ INFRARED FILTERS

*Covert Illumination  
For Night Vision*

  
U.S. NightVision

## Blackout™ infrared filters

Transforms any light into an infrared flashlight for your night vision device. Blackout™ Infrared Filters block 99% of the visible light spectrum from any visible "white" light source. Blackout™ Infrared Filters allow a maximum of Infrared output while maintaining extreme covertness. Currently in use around the world, Blackout™ Infrared Filters are used by Military, Law Enforcement, Industrial and Commercial customers. The unique formulation of our IR material allows for maximum durability and heat resistance. Blackout™ Infrared Filters are the professional's choice and they work with all Generations of night vision.

*US Night Vision H2  
In The Blackout™  
Spot Light*

## infrared spot flood light kit

Night Vision does not always perform as expected, so when additional covert infrared illumination is required, a Blackout™ Spot Light Kit will do the job. Greatly enhance your night vision device's capability with our Blackout™ Infrared Light Filters and Spot Flood Light Kits. The rechargeable million-candle spot light can be used with or without a filter attached for greater flexibility. The Filter can be attached and detached within seconds with our new Blackout™ Spot Light Kit. This kit will work "covertly" with any Generation of night vision

Blackout™ Spot Light Kit - Part Number **USNVBF-120**  
kit includes, million candle rechargeable light, blackout filter, ac/dc charger

Blackout™ Spot Light Filter - Part Number **USNVBF-130**  
kit includes, 5 7/8" filter with rubber boot for attachment to any spot light

## infrared flashlight filters

The perfect accessory to compliment any night vision device. Our Infrared Flashlight Filters convert a standard flashlight into a powerful IR illuminator. Available in different sizes, so please specify when ordering. We have filters with flip up boots for the most common tactical and professional flashlights.
