

## FRAMES

Prescriptions are available in virtually every frame in the Bollé collection, including hard-to-Rx 8-base curve wraps from the stunning Snake collection, stylish 6- and 8-base curve Bollé Metals as well as the classic Bollé original styles.

## HYDRALON™ NYLON FRAMES

Bollé's legendary hydrated nylon frames are world renowned for their superior strength, flexibility, light weight and, of course, superb styling. No other frames come close! Some frames also feature Thermo-Grip™ temple tips and nose pads, and several offer wire core temples for optimal fit.

## SPORT OPTICAL SYSTEM

The original and still the best series of easy-to-Rx Action Sport models. Adapters snap into the frame behind lenses and still allow benefit of interchangeable lenses for optimal vision in all light conditions. Available in our SOS, Competivision™ and golf versions.

## BOLLÉ METALS

Design-forward ophthalmic quality metal frames featuring spring hinges, Thermo-Grip temple tips, adjustable silicon nose pads and eye-wire screws. Available in our street (6-base) and sport (8-base) styles.

RX ADAPTER

## GOGGLES

Nine models that accept Rx adapters make Bollé your best source for Rx-able ski goggles.

## PRESCRIPTION GUIDELINES

(Refer to Bollé 2002 catalog for detailed information on every frame.)

<b>CYLINDER:</b> TO -2.50D*

\*TOTAL POWER NOT TO EXCEED - 5.50

## PROGRESSIVES

Since every frame fits each patient differently, Bollé recommends that any prescription for a progressive lens be accurately measured using the actual frame on the patient. Generally speaking, progressives are not recommended for frames that will not accommodate at least a 22mm Seg Height.

# BOLLÉ AUTHENTIC LENSES

The Bollé Authentic Rx Program offers the most lenses available in our sunglasses, including Polarized Gun flash and eight other lens tints. In addition, most lenses are available in progressive bifocals. All lenses offer 100% UVA & UVB protection and are scratch-resistant coated on both sides.

### BOLLÉ NON-POLARIZED LENSES

**TNS**  
Low contrast, gray, true color acuity.

**TLB**  
High contrast brown, strong color intensity.

**EAGLEVISION 2™**  
High contrast cinnamon lens. Best for low light conditions on the golf course.

**EAGLEVISION 2™ DARK**  
Darker version of original high contrast cinnamon lens. Ideal for bright days on the golf course.

**LEMON**  
Yellow lens perfect for low light; provides crisp optical clarity.

**CITRUS**  
Medium contrast in low to medium light conditions.

**VERMILLON**  
All-purpose, high contrast rose lens; excels for skiing; great all-purpose lens.

**COMPETIVISION™**  
THE tennis lens; mutes all colors except for optic yellow so ball pops.

**BOLLÉ 100**  
Very dark. Perfect for climbing and very bright light conditions. Do not drive with these lenses.

### OTHER LENSES AVAILABLE

For a truly custom Bollé sunglass, we offer several other lens choices including Varilux®, flat top 28 bifocals, and trifocals. Call for details.

### BOLLÉ POLARIZED LENSES

**POLARIZED SANDSTONE®**  
High contrast, rose with color enhancement. Ideal for all-purpose & marine (single vision only).

**POLARIZED TLB**  
High contrast, brown. Ideal for use in bright, hazy conditions.

**POLARIZED TNS**  
High contrast, light gray. Ideal for fishing and low light conditions.

**POLARIZED CACTUS™**  
Medium contrast, gray/green, true color acuity. Ideal for driving and sport.

### BOLLÉ FLASH COATINGS (Flash coatings available in Solid or Gradient.)

**GUN FLASH**

**BLUE FLASH**

**GOLD FLASH**

**BOLLÉ AR COATING**

AR coat with 7 layers of interspersed hydrophobic silicon, titanium and chromium. Dramatic reduction of annoying bounce glare.

### PROGRESSIVE LENSES

Available, depending on frame. Polarized Sandstone™ not available in progressive.

**STAMPED "B" LOGO ON LENS**

Standard.
