

Y2000

emergency response intercom system

Peltor's Y2000 Vehicle Intercom System is designed for emergency response personnel to clearly talk to each other while in transit to a situation. The high background noise in the vehicle due to engines and sirens will no longer jeopardize communication and slow down response time upon arrival at the scene.

- ▶ Duplex intercom discussions
- ▶ Connects to any vehicle radio system
- ▶ Easy installation

Y2000

EMERGENCY RESPONSE INTERCOM SYSTEM

Peltor's advanced intercom electronics, combined with our excellent noise attenuating headsets, allow response time to be used for briefing crew members with crystal clear instructions. The Y2000 intercom has an easy layout design making it an exceptionally versatile and quick system to install. The durability and performance is guaranteed by using metal housings, military standard plugs & jacks, and EMI/RFI shielded cable assemblies.
