CARE AND MAINTENANCE

FILL THE BASIN WITH WATER AND PLUG INTO A STANDARD ELECTRICAL OUTLET.

DO NOT ATTEMPT TO MOVE THE DISPLAY ONCE IT IS FILLED WITH WATER. EMPTY THE BASIN BEFORE REMOVING FROM THE WALL. MAINTAIN THE WATER LEVEL BY FILLING TO 2" BELOW THE TOP EDGE OF THE BASIN ABOUT ONCE A WEEK. WATERFALLS THAT ARE PLACED NEAR AIR CONDITIONING VENTS AND INTAKES WILL EVAPORATE AT A FASTER RATE. DO NOT OPERATE IF LOW ON WATER. IF HARD WATER IS A PROBLEM IN YOUR AREA, THE USE OF DISTILLED WATER WILL GUARANTEE THE BEST RESULTS. IT IS RECOMMENDED TO DRAIN THE RESERVOIR ABOUT ONCE EVERY THREE MONTHS AND REFILL WITH CLEAN WATER. BE CAREFUL NOT TO GET CLEANING AGENTS INTO THE WATER.

LIMITED WARRANTY

Bluworld of Water warrants this product to be free from defects in material and workmanship for one (1) year from the original date of purchase by the consumer. This warranty is limited to the replacement of defective parts or components. In addition, the submersible pump is warranted by its manufacturer for a period of one (1) year against defective material and workmanship. All claims must be presented to the manufacturer along with the original purchase receipt to verify a valid warranty period. Bluworld of Water will not be responsible or liable for any damage caused by negligence or misuse, goods damaged in transit, or improper set up, installation or assembly by the purchaser. Bluworld will, upon written notification thereof, take commercially reasonable steps to correct such defects, at Bluworld sole option, by suitable repair, replacement, or refund. Please read all instructions carefully. *Notice: Glass mirrors and plastics have prevalent characteristics such as bubbles, mirror rubs, slight discolorations, blurs, and hairline scratches. These are to be expected, as they are inherent qualities that meet or exceed federal specifications DD-G-451D.*
