

# OAKLEY SI BALLISTIC M FRAME® 3.0 WITH PRIZM™ LENS

## PRODUCT DESCRIPTION

AN SI EXCLUSIVE STYLE

Oakley SI has developed an array of contrast enhanced Prizm™ lenses which provide both elite and recreational marksmen with greater clarity and contrast of targets. The lenses strategically block specified wavelengths along the color spectrum in order to maximize contrast between selected colors in a shooting environment. The end result, the Prizm™ eyewear user has reduced eye fatigue and improved vision of a target.

**Prizm™ Lens Technology** - Prizm™ lenses use formulated dye compounding technology to fine tune specific colors, enhancing visual contrast between targets and surrounding objects

**Stem Technology** - Thin stem technology enables compatibility with over-ear hearing protection/comms

**Secure Fit** - Even under wet conditions via hydrophilic Unobtanium® nose pad

**Fog Free Lenses** - Permanent anti-fog coating on the back surface (near eye), scratch resistant hard coating on front

**High Purity Optical Grade**- All lenses are made from Plutonite®, Oakley's high purity optical grade polycarbonate

AN SI EXCLUSIVE STYLE

## KEY FEATURES

### LENS

- Oakley SI Prizm™ technology uses formulated dye compounding technology, producing a color-tuned lens specifically for shooting
- Lenses boost visual recognition of targets while blocking a variety of neighboring backgrounds such as dirt, trees and sky
- Lenses allow the shooter to reduce eye fatigue and strain, while improve the ability to see reticle patterns under scope more clearly
- All available lenses are made from Plutonite®, Oakley's high purity optical grade polycarbonate
- All lenses are block 100% of UVA, UVB and harmful violet-blue light up to 400nm wavelength
- All lenses feature Oakley's HDO® Optics with Polaric Ellipsoid™ Technology
- Secure fit even under wet conditions via hydrophilic Unobtainium® nose pad

### FRAME

- Full compatibility with helmet-mounted night vision devices
- Full compatibility with MICH, ACH, CVC, PASGT, and Crye helmets
- Thin stem technology enables compatibility with over-ear hearing protection/comms
- System features quick, tool-free lens change
- Chemical and impact resistant O Matter® frame material
- Ultra lightweight design (1.05-ounce total weight)

## CONFIGURATIONS

PART #	FRAME COLOR	LENS COLOR
--------	-------------	------------

53-092	SI Bal M-Frm 3.0 CE Brght Lght Repl Lens
53-093	SI Bal M-Frm 3.0 CE Low Lght Repl Lens
009146-14	SI Bal M-Frm 3.0 Mtt Blk w/CE Lens Arry
009146-19	SI Bal M-Frame 3.0 Mtte Blk w/CE Bright
009146-20	SI Bal M-Frame 3.0 Mtte Blk w/CE Low

### BALLISTIC & OPTICAL STANDARDS

- High Definition Optics that meet all optical standards per ANSI Z87.1-2010 (Clause 5.1.4)
- Meets or exceeds MIL-PRF-31013 Ballistic Fragmentation Protection requirement per Clause 3.5.1.1
- Meets or exceeds MIL-PRF-32432 (GL) MCEPS

### ACCESSORIES

- Oakley Rx carrier system available
- Replacement lenses available
