SCRIPPHILY (scrip-af-il-ly),

Is the name of the hobby of collecting of stock and bond certificates. Scripphily is an interesting area of collecting due to both the inherent beauty of some historical documents as well as the interesting historical context of each document. Some stock certificates are excellent examples of engraving. Occasionally, an old stock certificate will be found that still has value as a stock in a successor company.

Scripphily.com

The name Scripphily was established in 1978 is derived from both English and Greek. "Scrip" represents an ownership right and "philos" means to love. Today there are thousands of collectors worldwide in search of scarce, rare, and popular stocks and bonds. The hobby of Scripphily is one of the most exciting areas of financial history. Over the years there have been millions of companies that needed to raise money to operate effectively. In order to do so, the founders of these companies issued securities. Paper stock and bond certificates are a historical record of the successes and failures of these businesses over time.

Scripphily.com was founded by Internet Pioneer, Bob Kerstein, a Certified Public Accountant, Chartered Global Management Accountant and former CFO of publicly held communication companies. Scripphily.com is the internet's #1 buyer and seller of collectible stock and bond certificates, and old company research services. Scripphily.com has serviced tens of thousands satisfied customers worldwide over the past 17 years on the Internet and is rated A+ by the Better Business Bureau.

Scripphily.com owns all archives, publishing rights and copyrights on obsolete research reference material published by the Marvyn Scudders Manuals, the Robert D. Fisher Manuals, and the Herzog & Co., Inc. obsolete research services, which have been performed continuously since 1880. The company has the largest online offering of stock and bond certificates with a selection of over 17,500 items.

Special thanks to Wikipedia, Confederatebonds.com, Encyberpedia and OldCompany.com for much of the historical background contained in this calendar.

CERTIFICATE FROM THE FERRIS WHEEL AT COLUMBIAN WORLD'S FAIR EXPOSITION CHICAGO 1893

CERTIFICATE FROM THE FERRIS WHEEL AT COLUMBIAN WORLD'S FAIR EXPOSITION CHICAGO 1893

Visitor's certificate attesting to the fact that the person whose name is shown below did indeed take a ride on the Ferris Wheel at the 1893 World's Columbian Exposition. In the upper left corner is a picture of George G. W. Ferris. Below is the printed seal of the Ferris Wheel Co. ("Incorporated AD1892 Chicago, Ill.").

What La Tour Eiffel was to the Paris Exposition of 1889, the Ferris Wheel was to the World's Columbian Exposition of 1893. Located near the center of the Midway, it was a giant that stood above all else at the fair. It was built by engineer George G. W. Ferris despite the censures of a host of engineers and experts who insisted that a construction of such magnitude would surely collapse under its own great weight. On December 16, 1892, final arrangements were consummated to allow the construction of the wheel on the Midway.

There were 36 cars, each fitted with 40 revolving chairs and was able to accommodate up to 60 people, giving a total capacity of 2,160. The wheel carried some 38,000 passengers daily and took 20 minutes to complete two revolutions, the first involving six stops to allow passengers to exit and enter and the second a nine-minute non-stop rotation, for which the ticket holder paid 50 cents.

The Exposition ended in October of 1893. The wheel closed its operations in April of 1894 where it was dismantled and stored for the following year. Subsequently, it was rebuilt on Chicago's North Side, near Lincoln Park, next to an exclusive neighborhood.

De Valera, a leader of the 1916 Easter Rising, had been born in New York, but raised in Ireland. In 1919, after escaping from a British prison, he returned to the United States to raise funds and demand recognition of Irish independence. During his American tour, de Valera raised over five million dollars through the sale of republican bonds.
