

EM1450 Mount

WALL MOUNT, LIGHT DUTY, ENCLOSURE

Product Features

- Light Duty Wall Mount
- Maximum Load 20 lb (9 kg)
- For Use with EH3500 Series Enclosures
- Adjustable Head for Mechanical Positioning of the Enclosure
- Can be Adapted for Pole Mount Applications With Use of PA101 Adapter

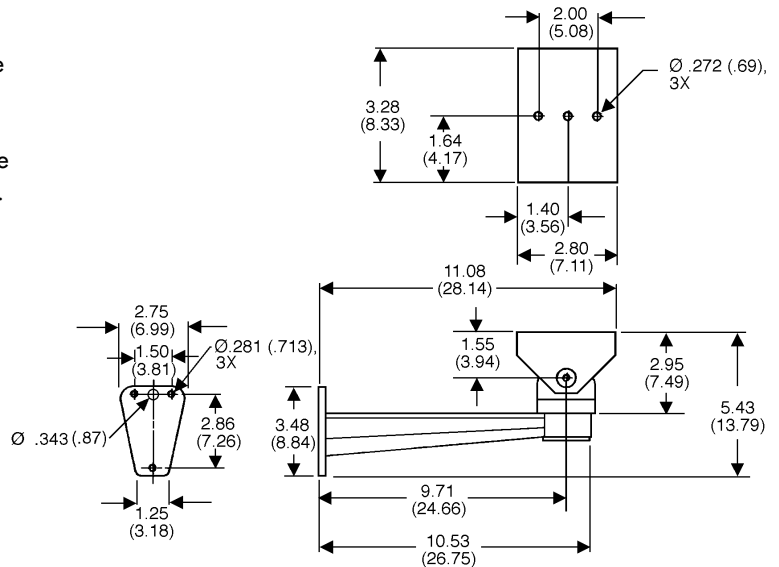

The EM1450 is a light duty wall mount designed specifically for use with Pelco's EH3500 Series enclosures.

Manufactured from die cast aluminum, the EM1450 is capable of supporting a maximum load of 20 pounds (9 kg) and can be safely mounted to any vertical load-bearing surface.

Similar in design to our EM1400 mount, the EM1450 features a smaller adjustable mounting head which is less obtrusive and provides ample clearance between the cable feedthrough glands and the mounting head.

The EM1450 can also be adapted for pole mount applications when used with our PA101 adapter.

NOTE: VALUES IN PARENTHESES ARE CENTIMETERS; ALL OTHERS ARE INCHES.

TECHNICAL SPECIFICATIONS

MODEL

EM1450 Light duty wall mount for use with EH3500 series enclosures
