

# 4Life® Health Sciences Advisory Board

Along with its new Eurasian Health Sciences Advisory Board (EHSAB), 4Life is set apart by the supporting expertise of a professional board of medical professionals, immunologists, nutritionists, and researchers—the Health Sciences Advisory Board (HSAB). Each of these scientific leaders is dedicated to the continued advancement of Transferceutical™ Science. Their long-standing influence has propelled 4Life to the forefront of immune system technology and helped provide distributors around the world with quality supplements for unmatched health support and market exclusivity for a fulfilling financial opportunity.

**Calvin McCausland, Ph.D.**

- 4Life Chief Scientific Officer/ HSAB Board Chairman
- Product Formulator/Researcher
- Kosigin and Pokrovsky award winner

*“Researching 4Life Transfer Factor® has been the most interesting research project of my life and it has, in terms of human benefits, revealed the most!”*

**Emma Oganova, M.D.**

- 4Life President of Eurasia/EHSAB Board Chairwoman
- General Medicine, Clinical Research
- Academician of Russian Academy of Medical and Technical Sciences
- Kosigin and Pokrovsky award winner

*“It is a blessing to share the 4Life philosophy, exclusive Transfer Factor products, and Life Rewards Plan™ with people from different countries. I am so happy to have this opportunity of a lifetime to be part of the positive changes in so many people’s lives.”*

**Brent Vaughan, M.S., R.D.**

- 4Life Director of Health Information Systems
- Registered Dietician
- Product Researcher/Formulator

*“4Life Research™ has always been at the forefront of Transferceutical Science and it has been an honor for me to participate in these advancements.”*

**Cynthia Champion-Olson, N.D., C.T.N., C.N.**

- Clinical Nutritionist/ Homeopath

*“It’s my passion to help people. Transfer Factor is the foundation for every health protocol that I use in my practice. After working with these products for over nine years, I would sum it up in these words... The science gets better, the products get better, and the people get better. 4Life has broadened the immune system frontier with Transferceutical Science and products that directly influence the way people live today.”*

**Edgar Guess, M.D., F.A.C.O.G.**

- OB/GYN, Oncology
- Clinical Professor USC Medical Center

*“In my opinion the three most important scientific advances in modern history are: 1905, E=MC² by Albert Einstein; 1949, Transfer Factor by Dr. Sherwood Lawrence; and 1998, 4Life Research by David Lisonbee. This is why I am proud to be a part of the company that will have the most profound, positive effect on the health and nutritional industry in this century.”*

**Duane Townsend, M.D., F.A.C.O.G.**

- OB/GYN, Gynecologic Oncology
- Author of *A Maverick of Medicine Speaks to Women*

*“Transfer factor is the natural product that gives one unparalleled immune system support. I’m 75 years young, and it’s great to be healthy. And my patients love taking 4Life Transfer Factor as well!”*

**David M. Markowitz, M.D.**

- Pediatric Hematology/  
Oncology

*“As a pediatrician, I have been pleased to see thousands of my little patients and their families experience great immune system support by using 4Life’s natural Transfer Factor products. My mission as a physician is to teach and encourage natural ways of supporting good health. I look forward to sharing this effective approach to health with thousands more!”*

**Richard Bennett, Ph.D.**

- Microbiologist/Immunologist

*“To be a Transfer Factor researcher with 4Life is an honor and the high point of my career. However, when someone approaches me at a meeting and tells me with tears in their eyes how grateful they are for our work, there is no better feeling than to know we are making a huge contribution to the wellness of humanity.”*

**Robert Robertson, Jr., M.D.**

- Former Emergency Room  
Physician

*“As more and more knowledge is uncovered about the science of how 4Life Transfer Factor works in our bodies, it becomes even more essential that we help educate the public about the benefits of consuming the product on a daily basis.”*

**Suzette Lawrence, M.S.N.,  
C.N.M.**

- Former Midwife

*“4Life Research delivers a vehicle for health and prosperity for those wise enough to accept responsibility for their health and happiness. After 10 years of representing 4Life, the most exciting time of my day is when I receive a call from a new customer who has just experienced a breakthrough in their health. They feel what they thought they never could—HEALTH through immune system vitality!”*

**Teresa Tomalska, M.D.**

- General Medicine
- Chicago radio talk show host

*“It seldom happens that one scientific discovery can bring such huge benefits in supporting the health of every human being. Taking an active role in making it happen with 4Life Transfer Factor gives me joy. It is the adventure of a lifetime.”*

**Vijendra K. Singh, Ph.D.**

- Neuroimmunologist
- Biomedical Researcher/  
Biotechnology Consultant
- Research Associate Professor,  
Utah State University

*“Harnessing the scientific discovery of transfer factors as an immune system health factor, 4Life created a business opportunity for people to gain financial independence and prosperity. Together with so many others, I am proudly dedicated to sharing this opportunity with people from all walks of life.”*

**Vivienne Matalon, M.D.**

- General Medicine
- Clinical Instructor, University  
of Medicine and Dentistry of  
New Jersey

*“In my 19 years of practicing medicine, my passion has been to provide the highest quality of medical care. My privileged association with the HSAB has inspired me and many of my colleagues with whom I have shared the products and corresponding research. I’m excited to continue my work with 4Life Research™ and to see what the future brings.”*
