Extra Cushioned Headrest

Lean back, rest your head on the large supportive headrest with flip-up pillow.

Upholstered Arms

Generous upholstered arms support writing, thinking and keyboarding.

Live Back™

Separate upper and lower back controls allow the chair back to mimic and support your every move.

Natural Glide System™

The seat moves as you move, encouraging natural, comfortable movement.

Seat Cushion and Seat Height

Seat is extra cushioned and height adjustable.

Glides or Casters

Leap WorkLounge comes standard with glides, casters are available for more mobility.

Leather or Wool Suede Too

Choose from four colors in high quality leather or one of twenty-two rich Wool Suede Too color options for both the Leap WorkLounge and Ottoman.

Matching Ottoman

The cushioned Ottoman quickly converts into a functional worktable. It may be ordered with Leap WorkLounge, or separately for use with any chair.

Impressively Crafted

Elegant form, rich materials and Leap technology are a creative combination you can really appreciate with the Leap® WorkLounge™.

a new classic

Switch It

Work or rest, the Ottoman easily converts from work table to foot rest.

Recline, Unwind, Create

Whether you're working alone or in groups, for long periods of time or short, chances are you'll change your posture hundreds of times without ever knowing it. Research has proven it's the right thing to do for your health. So, if you need to push back and relax in a deep recline, sit up to keyboard, or even something in between, the Leap WorkLounge and Ottoman will provide you with exceptional comfort and support. In the office or at home, go ahead, sit any way you want. It's healthy.
