

Combo Washer-Dryers

The Ultimate in Convenience and Efficiency.

- Saves time, space, work & money
- Ventless models available
- Up to eight wash cycle settings
- Stainless Steel tubs and drums

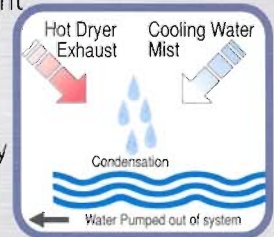

Better Cleaning, Lower Cost

Horizontal Axis design is gentler on laundry

- No agitator to harm clothes
- Saves energy & detergent
- Low water consumption
- Quiet operation

Ventless Drying

Hot air used to dry laundry is water cooled internally. Condensation is flushed from the machine via the water pump. Condensing dryers require cold water during the drying cycle to operate effectively. Condensing washer-dryers are ideal for custom-built homes or older homes and apartments which do not provide dryer vents. (Uses 3 US gal. during 120 min. cycle.)

ENERGYGUIDE

Equator Corporation
Model EZ 3710 CEE

Compare the Energy Use of this Clothes Washer
With Others Before You Buy

This Model Uses
237 kWh/year

ENERGY STAR
A symbol of energy efficiency

Energy use (kWh/year) range of all similar models

Uses Least Energy	125	Uses Most Energy	1298
-------------------	-----	------------------	------

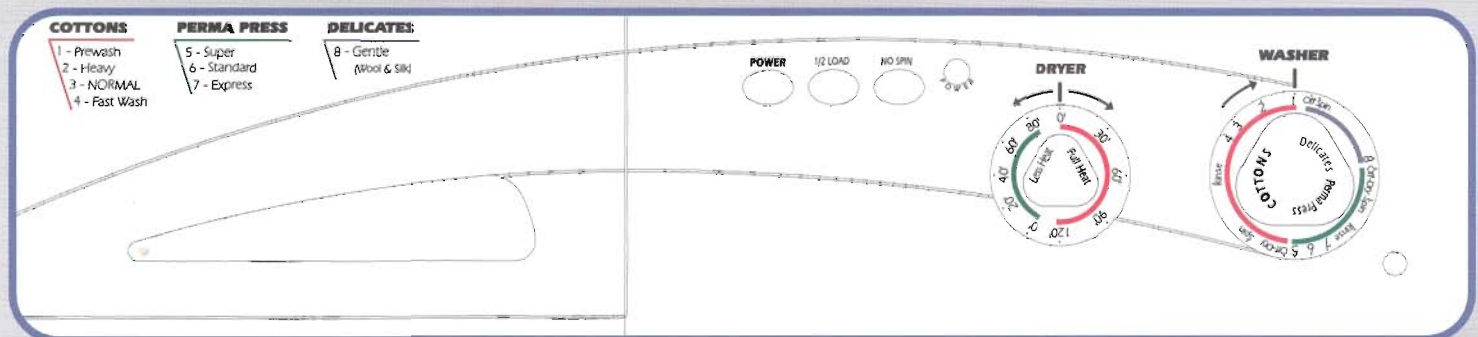

kWh/year (kilowatt hours per year) is a measure of energy (electricity) use. Your utility company uses it to compute your bill. Only standard size front loading clothes washers are used in this scale.

Clothes washers using more energy cost more to operate. This model's estimated yearly operating cost is:

\$ 16.78 **\$ 4.89**

When used with an electric water heater When used with a natural gas water heater
Based on eight loads of clothes a week and a 2000 U.S. Government national average cost of 8.0¢ per kWh for electricity and 68¢ per therm for natural gas. Your actual operating cost will vary depending on your local utility rates and the use of the product.

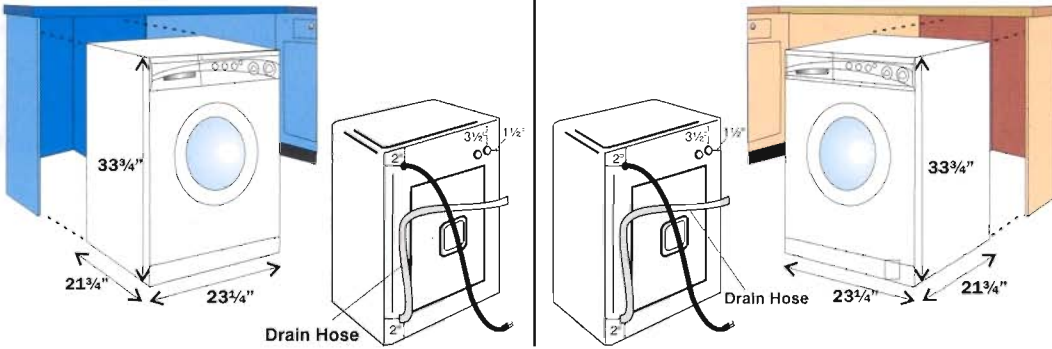

All Combination Washer-Dryers feature easy to operate controls.

EZ 3710 CEE

Built-In Installation and Hook-up

EZ 1710 V

Washer-Dryers can be installed built-in, (under a counter), or as free-standing units.

Equator Low-Sudsing Laundry Detergent

For best washing results, Equator recommends using low sudsing detergent. Ordinary detergents can cause over-sudsing which can damage H-axis washers.

Pedestal

Eight inch high pedestal with leveling legs, specifically designed to fit the washer-dryers and raise the machine. Allows easier access for those who have difficulty bending and lifting. Available in white.

Leveling legs built in under pedestal

PORTABILITY KIT

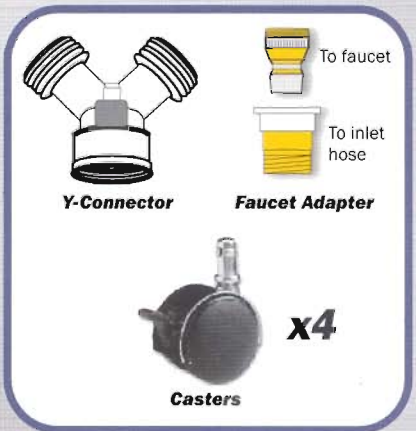

Makes the washer-dryer easier to move. Kit includes a Y-Connector, Faucet Adapter, and four Casters.

Single Water Source Connection

For connection to a single 3/4" faucet (if needed) by using the Y-connector. The Y-connector ensures that equal water pressure enters the machine through both water inlet valves.

"Quick-Connect" Faucet Adapter

"Snap-on/snap-off" connection to smaller (less than 3/4" diameter) kitchen faucets.

Safety Approval

LISTED

US N° 3008319 CANADA

No Maintenance Required

Ventless Washer-Dryers models have no lint filter to clean.

External Shipping Bolts

Shipping bolts used during shipping are located on the outside of the back panel for easy removal.

Fabric Softener is recommended for optimal drying.

Fabric Softener prevents clothes from "sticking" to the drum after the wash spin cycle.
