DVD-H1080 Stylish DVD Player

PLAYER

1080p up-scaling

HDMI (High-Definition Multimedia Interface) transfers hi-definition (720p/1080i) video and audio from your DVD Player to your TV, Home Theater, or other digital AV components. Simply connect your DVD Player to your Home Theater System with a single cable for the high quality pictures and sound.

HDMI-CEC (Anynet+) A true "plug and play" product, it comes with a Consumer Electronics Control (CEC) feature that lets you operate multiple HDMI products with a single remote control.

14 bit video DAC

Progressive scan output scans individual picture lines in sequence rather than alternately, maximizing the clarity of digital images and bringing new realism to your DVD viewing experience.

BD Wise: perfect replay of Blu-ray discs with other Samsung BD Wise products when using HDMI connection.

EZView Letter Box Eliminator enables the elimination of the black letterbox bars of 4:3 TV screens with the push of a button on the remote control.

DivX playback: Insert DVDs & CDs that have DivX movies downloaded via computer and enjoy watching them on a large-scale TV.

Touch of Color™ (TOC): Samsung's unique manufacturing process accents the surrounding bezel with a stylish red tone

Touch sensor buttons

Super Scan Playback

Instant skip

Instant Replay
