†D3122XL not available in bisque.

*Does not include the depth of a custom or optional door. If an ASKO optional door is used, add 2-1/2" in depth.

**Does not include the height of a custom or optional door.

ASKO retains the right to vary the model specifications at any time. All facts were accurate at time of printing. Before purchasing any appliance, read energy cost and efficiency information at your retailer.

Control Panels

D3112
(STANDARD TANK)

The D3112 is a standard control model that comes in white, black, bisque and stainless steel. The easy-to-use control system offers one-touch access to its four programs. It remembers the last program used so you just press Start to run it again. To change the program, just push the Program button and advance through the selections. It also has a light that shows the unit's progress through the cycles.

D3122XL
(TALL TANK)

The D3122XL is a standard control model that comes in white, black and stainless steel. It features the same style simple control that is used on the D3112 except that it has the added feature of the Turbo Fan™ drying system. It has four programs and a memory of the last program selected.

D3432XL
(TALL TANK)

The D3432XL has a hidden control panel but a standard control panel look in black, white, or stainless steel. It has 6 wash programs and remembers the last program used. The control has three option buttons that change temperatures, delay start and adjust drying. A convenient End-of-Program signal sounds when the wash cycle is complete.

D3232XL
(TALL TANK)

D3232XLFI*
(TALL TANK)

The D3232XL has a hidden control panel with button access to six programs. The control has three option buttons that change temperatures, delay start and adjust drying. The control remembers the last programs and options used. A convenient End-of-Program signal sounds when the wash cycle is complete. The D3232XLFI uses the same controls. It must be installed with an optional one-piece metal panel (as shown here) or an owner supplied custom door panel.

D3251XLHD
(TALL TANK)

D3251FI*
(STANDARD TANK)

D3251XLFI*
(TALL TANK)

All D3251 dishwashers have a hidden control panel with push-button access to six programs. This control adds two options, half-load and express wash. A convenient End-of-Program signal sounds when the wash cycle is complete. The HD model has a stainless steel front with a straight towel-bar handle. FI models must be installed with an optional one-piece metal panel (as shown here) or an owner supplied custom door panel.

D3531XLHD
(TALL TANK)

D3531XLFI*
(TALL TANK)

The D3531XL is a hidden control model with push buttons and an LCD display. This dishwasher displays 10 wash programs, time remaining, temperature and options. It remembers the last program used and will operate in multiple languages.

D3731XLHD
(TALL TANK)

D3731XLFI*
(TALL TANK)

The Encore, D3731XL, is a hidden control model with push buttons and an LCD display. This dishwasher displays six specialized wash programs, time remaining, temperature and options. It remembers the last program used and will operate in multiple languages.

HD models have a stainless steel front with a straight towel-bar handle. FI models must be installed with an optional one-piece metal panel (shown here) or an owner supplied custom door panel.

**All FI dishwashers must be installed with a door panel. ASKO has metal panels available in white, black, bisque, and stainless steel with curved handles. A customer supplied panel can also be installed.*

Every ASKO dishwasher is EnergyStar rated.

The D3000 series has already won an award in Germany's international iF Design Contest. To quote the judges, "One of the surprising new features is the three-dimensional graphic symbols which are logically designed and easy to understand."
