

FertilAid[®] for women

The Natural Choice in Reproductive Wellness

Optimize Your Chances of Conceiving!

FertilAid[®] for Women was formulated on the basis of established scientific literature to help optimize fertility safely and naturally. An effective, non-prescription formula that integrates complete preconceptional vitamin and mineral support with fertility-enhancing ingredients such as Vitex (chasteberry), FertilAid[®] for Women is designed to help restore female hormonal balance, promote regular ovulation and support overall reproductive wellness.

Designed by Dr. Amos Grunebaum, M.D., a leading fertility expert and Director of Obstetrics / Chief of Labor and Delivery for a top University Medical Center.

"The herbal and nutritional components of FertilAid[®] have all been selected for their roles in promoting reproductive wellness."
- Dr. Amos Grunebaum, ObGyn

Why FertilAid[®] for Women?

- The only fertility supplement offering complete vitamin and antioxidant support
- Includes a "Just Right" preconception dosage of folic acid
- All natural, proprietary formula that includes Vitex (chasteberry) and other fertility-enhancing herbal ingredients
- The safe, non-prescription formula that is Doctor and ObGyn approved

Hear what others are saying about FertilAid[®] for Women:

"I wanted to say thank you for this product. I took it for 6 weeks and got pregnant (plus, I never had normal cycles prior to taking this). I was thrilled not to have to use clomid - thank you again."
- Nancy K., FertilAid[®] Customer

"It worked after 2 short months. After TTC for 1.5 years, I was beginning to think it wasn't going to happen for me. I decided to give FertilAid[®] a try, and after just 2 short months we are now pregnant! I wish I would have tried it sooner!"
- Tati, Reviewed at Babycenter.com
