

PregnancyPlus® omega-3

Pregnancy Plus® Omega-3

Omega-3 fatty acids are a vital part of pregnancy wellness, fetal development, and infant health. That's why Pregnancy Plus® Omega-3 is designed to provide mothers and mothers-to-be with a "Just Right" amount of the specific Omega-3s you and your developing baby need. Formulated by Amos Grunebaum, MD, Pregnancy Plus® Omega-3 is uniquely designed for pregnant and nursing mothers, as well as trying-to-conceive women looking to optimize reproductive health. Molecularly distilled for maximum purity and with a DHA-enriched formula, Pregnancy Plus® Omega-3 is the safe, effective way to ensure your baby's healthy development.

Why Pregnancy Plus® Omega-3?

- Supports healthy development of baby's brain, heart and eyes
- Enhances infant cognitive function and attention span
- Supports a healthier pregnancy and decreases odds of premature delivery
 - Doctor-formulated and ObGyn-approved
 - Molecularly distilled for maximum purity
 - Safe and natural – contains no artificial dyes, flavors, or preservatives

PregnancyPlus® cal-mag

Pregnancy Plus® Cal-Mag

Pregnancy Plus® Cal-Mag chewable, chocolate-flavored tablets were developed by leading ObGyn, Dr. Amos Grunebaum, specifically for pregnant or trying-to-conceive women and nursing mothers. Calcium is critical during pregnancy for the growth and development of strong bones, muscles, teeth, and a healthy heart. Magnesium helps regulate insulin and blood-sugar levels and helps enzymes function properly; it is also significant in the healthy development of bones and teeth. Pregnancy Plus® Cal-Mag contains at least 100% RDA of both essential minerals for pregnant and trying-to-conceive women.

Why Pregnancy Plus® Cal-Mag?

- Contains 1000mg of Calcium and 500mg of Magnesium per serving
- Supports healthy growth and development of baby's bones, muscles, teeth and heart
- Protects mothers against loss of bone mass and helps lower risk of osteoporosis
- Chewable with a delicious chocolate flavor!
- Supports a healthier pregnancy and may help decrease risk of premature delivery
- Doctor formulated and ObGyn-approved
