

OVHS072 Headset for business Phones

Key Features

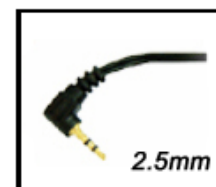

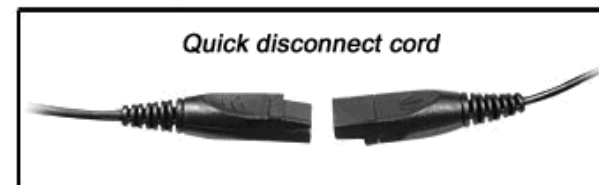

- Single earpiece leaves the other ear free
- Soft, cushioned leatherette earpiece is super-comfortable
- Long-lasting metal and elegance rubber boom, adjustable headpiece
- Headpiece has extra-wide rest for non-earpiece side
- Durability
- Compatible with: Nortel Meridian, Cisco, Polycom, Linksys, Grandstream, Snom ...

OVHS072 headset services you with all-day comfort and superior sound quality. With its lightweight over-the-head single leatherette earpiece design, you may wear it all day and feel comfortable. Its noise-canceling microphone reduces surrounding background noise while giving you crystal clear phone calls. The microphone boom can be rotate for placement on either the left or the right ear. Headset size can be adjusted base on size of the head. It comes with a tangle-free coiled cord and shirt clip. Quick disconnect cord gives the user convenience.

Two different connector options: Standard phone handset connector RJ-22 and 2.5mm plug.

Standard Features

- Noise-Cancelling microphone (Mono & Dual Earpiece headband)
- Soft leatherette ear cushion for all-day comfort
- Flexible microphone boom
- Click-Stop Headband and boom
- Great sound, Comfort, Durability
- RF-Shield
- Built-in Acoustic Shock Protection, to prevent electric overload.
(When the electric overcharge signal of 6v above comes to the receiver, it will be cut off automatically. So the sound keeps regularly. The microphone is to reduce the Noise as the impedance of the input level goes down.)
- RJ22 and 2.5mm connector (optional)

*** Order information: indicate which brand of phones will use the headset with and what kind of connector.**
