

Biocide Systems Introduces New High Technology Skunk Odor Eliminators for Dog, Cat, Home and Yard

Biocide Systems announces release of new products - doggiCLEEN Skunk 911 Kits™ and doggiCLEEN Skunk Spray™.

([PRWEB](#)) November 3, 2009 -- Biocide Systems is pleased to announce the release of our doggieCLEEN Skunk 911 Home and Rescue Kits™ and doggiCLEEN Skunk Spray™. Our new line of products offers the first ever comprehensive solution to all skunk incidents. Until now, most products in the industry have not been able to completely eliminate skunk odor on dogs or in homes, cars and yards. In fact, many products simply mask the smell instead of getting rid of it.

Now, with Biocide System's selection of EPA (Environmental Protection Agency) approved room and liquid-based odor eliminators and deodorizers, people can easily get rid of pesky skunk odor with a single application. Our new products include:

* doggiCLEEN Skunk 911 Home Kit™ - intended to eliminate skunk odor from dogs that have been sprayed and remove skunk smell from rooms and entire homes. Kit includes: one doggiCLEEN Skunk Spray and one Room Shocker Quick Release.

* doggieCLEEN Skunk 911 Rescue Kit™ - complete solution that is guaranteed to combat skunk odor where ever it is present. This kit eliminates skunk odor lingering in homes, cars and yards. Kit includes: one doggiCLEEN Skunk Spray, one Room Shocker Quick Release, one Auto Vaccine Quick Release and one avanFLEX Liquid Deodorizer.

* doggiCLEEN Skunk Spray™ - highly effective and affordable formula that washes out skunk odor so that people do not have to deal with costly vet bills after their dogs have been sprayed.

Biocide Systems' doggieCLEEN Skunk 911 Kits are a must buy for pet owners, veterinarians and pet suppliers. Biocide Systems expects to have retail packaging for resellers in the pet care industry by December 2009.

When asked about the latest products, Juan Baselli, CEO of Biocide Systems said, "We're so happy with our customer's response to this new product! We sold out of our initial inventory in less than 30 days from our first trial." He isn't the only one who is ecstatic. After trying Room Shocker Quick Release™, a satisfied customer wrote, "I will admit I was a bit skeptical but I am truly amazed and now a believer. I released two of them last night and no more skunk smell!"
