# GATE CARE & REMINDERS

Our gates are built to last many years with proper use and care. Here are a few suggestions...

- Close gates gently - do not slam - to prevent damage to latch mechanism.
- When closing, be sure safety bracket on gate frame engages as depicted in instructions.
- For safety, always close gate when not in use. Children should not be allowed to swing on an open gate as this can damage hinge mount.
- Periodically check all screws, bolts, etc. for security and proper adjustment.
