Carved (not engraved) the crispest, deepest, cleanest carvings available. Our patent-pending machinery is not your typical engraver. Designed & built by Mike Lancaster (CS President) who has a 20-year history designing & building machinery in the world-wide semiconductor industry. Mike holds patents in Germany & the US. With his technical experience at the helm only Carved Solutions can produce quality deserving of your discerning taste; excellence matters.

**With our warm white color and mass-appeal fragrance we secure success with every purchase. Remove the worry of getting the "right" color and the "right" scent & provide the deepest carving in the entire market.*
