

Supreme Equipment Package

\$ 925 w/ 1 hp pump

\$ 975 w/ 1.5 hp pump

STA-RITE Premium Grade Above Ground Sand Filter & Pump System

STA-RITE puts quality in this high performance, low maintenance filter system. These rugged high performance sand filter systems will delivery years of trouble free operation. STA-RITE, known for manufacturing top quality in-ground pool equipment, has brought its technology to its above-ground line – delivering superior flow rates, entergy-efficient operation and unsurpassed reliability.

The high quality filter tank is constructed of tough polyethylene that is weather resistant and corrosion-proof, that is backed by a 1-year warranty. An easy-to-use, 6-position multi-port valve for quick backwashing tops this rugged tank. Inside the tank, unique sand laterals provide even flow through the sand bed insuring maximum filtration as water passes through the filter. This highly efficient filtration system reduces energy costs by enabling you to run your pump less while still maintaining crystal clear water.

This STANDARD equipment package is available in two different sized systems; an 18" tank with 1-hp pump (for pools up to 24' round) and a 21" tank with 1-12/ hp pump (for pools over 24' round). Both systems come complete with base, multi-port valve and hose connections. Put STA-RITE's advanced technology to work on you pool this summer

Above Ground Pool - 7 Piece Maintenance Kit

3-Piece Telepole -

Exceptional quality and functionality! Enjoy years of use from this professional quality telepole featuring an external cam constructed of high-quality anodized aluminum - no rust or corrosion! This 3-piece telescoping pool has an extra-thick hand grip and two external locking cams for easy operation. The telepole length can be adjusted between 5' and 15'.

Premium Aluminum Leaf Skimmer -

Built to Last! Enjoy years of use from this top quality leaf skimmer featuring a rugged, yet lightweight aluminum frame with a non-mar finish to protect pool walls. The mesh net is super strong and chemical -resistant. Quick-release, Snap-Adapt® handle fits any standard size telepole.

Deluxe Chrome Thermometer -

Keep your eye on the temperature. Solid brass body and polished chrome finish make this thermometer both attractive and durable. Shatterproof plastic lens magnifies both Centigrade and Fahrenheit temperatures. Comes with an 8" nylon cord. Weighted body will not float.

Standard VAC Hose for Above Ground Pools -

Top quality at a great price. This high quality 1-1/4" vac hose features rugged construction for use on an above-ground pool. Its smooth inside walls allow for full, unrestricted flow and a special U.V. coating provides protection from the sun for years of use. Backed by a 2-Year Warranty.

Vinyl Liner Vacuum Head -

Exceptional cleaning power. Designed especially for vinyl liner pools, this vac head's unique brush pattern channels debris directly to the suction for easy removal. Heavy weights help the vacuum hug the pool floor for optimal cleaning power. Snap-Adapt® handle fits on any standard telepole. Weighs approximately 3 lb.

Nylon Wall Brush -

Keep your pool walls free from algae and grime. This rugged wall brush is specially molded with rounded corners and no sharp edges. Perfect for use on concrete, fiberglass, or vinyl liner pools. Thick, nylon bristles remove the most stubborn dirt & stains and outlast cheaper plastic bristles. The wide face is reinforced with die-cast aluminum for years of use. Snap-Adapt® quick-release handle fits any standard size telepole. Measures 18" across.

AQUACHEK Test Strips -

The quick, easy way to test pool water. No more vials, reagents and messy drops. Use AquaChek's simple, yet accurate test strips instead of that complicated liquid test kit. Just dip and read the results in 30 seconds. These 3-Way strips test for Alkalinity, pH, and Free chlorine or bromine.

Easy Pool Step with Ladder

This rugged step and ladder entry system is all you need to enter and exit your above ground pool if you don't have a deck. The Easy Pool Step system features our rugged step that will fit any pool up to 54" deep and makes getting out of your pool easy and safe. Attached to the step is our classic ladder that swings up and can be locked for safety.

Both the Easy Pool Step and the classic ladder can support up to 300 lbs. they are made of corrosion proof polyethylene for years and years of use. The step and ladder system is easy to install and operate. 3 year Warranty.

DirtBlaster Above Ground Automatic Cleaner

DirtBlaster will clean any above ground pool regardless of shape or depth. With only one moving part, it will remove dirt, twigs, leaves and debris from your pool. It will free you from the chore of vacuuming! Since there is only one moving part, DirtBlaster will give you years of maintenance free operation. Simply plug the unit's hose into your skimmer and DirtBlaster effortlessly cleans your pool. The unit is quick and easy to install and comes complete with 30' of hose. Backed by a 1 year warranty.

Winter Cover

This quality winter cover features heavy duty woven polyethylene and heat sealed seams which ensure that no dirt and debris enter your pool over the winter. Double stitched seams, a vinyl-coated cable around the perimeter and all-weather aluminum grommets with sincher, ensure the cover stays put in windy conditions. Comes with a 4' overlap and a black underside to retard algae growth. Navy blue top side, 8x8 inner scrim fabric. 8 year warranty.

Solar Blanket

This durable above ground solar blanket can warm your pool by as much as 15 degrees Fahrenheit. These solar blankets are made to give you maximum heating properties combined with long life. The 8 mil blankets are loaded with thermal bubbles that retain heat at night and on cool cloudy days. The transparent blue color allows the maximum amount of solar rays to reach your pool for optimal heating. All of our blankets are U.V. protected so they last under the most intense sunlight. Built to last and backed by a 3 year warranty.
