

FOR IMMEDIATE RELEASE

OSN™ UNVEILS NEW CARBON FIBER TRIPOD WITH INNOVATIVE NEW LEG LOCKING SYSTEM

OSN™, a distributor of high-quality digital accessories and professional and digital tripods, has announced the introduction of a new and improved carbon fiber tripod - the OS 364 LA. Making its official debut at PMA 2005 in Orlando, the OS 364 LA features an inventive leg locking and release system for carbon fiber tripods.

Traditionally, carbon fiber tripods utilize cumbersome rotating collar locks. OSN is pushing the envelope on innovation with its new leg locking design. The OS 364 LA is equipped with "quick lever leg locks." The quick release leg lever design allows for faster set-up and break-down.

Constructed of superior carbon fiber and magnesium, the OS 364 LA is light weight, but durable. It features a four-section leg design, with quick lever leg locks and three position leg spread settings. The versatile tripod also features a lift center column with collar lock, a reversible center column, a 3/8 inch panhead mounting screw and a magnesium table with leveling bubble. The OS 364 LA is also equipped with self leveling feet and ground spikes.

OS 364 LA Product Specs:

- Weight: 4.2 pounds
- Maximum Height: 68 inches
- Minimum Height: 17.5 inches
- Closed: 24.5 inches
- Leg Diameter: 28 mm
- Manufacturer's Retail Price: \$499.99

"Carbon fiber tripods are approximately 30 percent lighter than most aluminum tripods and offer photographers high performance solutions," said David Breymeier, president of OSN / One Source Network, Inc. "Like all of our tripods, the new OS 364 LA offers creative freedom, quality, a stylish design, and of course the convenience of a fast and easy set-up."

The new carbon fiber tripod joins OSN's already popular and exciting line of tripods, which features quality craftsmanship and unique designs.

THE OSN™ TRIPOD LINE

The OSN line includes:

- **OS 900** – The Company's OS 900 is a deluxe heavy-duty, three-section tripod designed to handle SLRs, as well as digital and video cameras. Constructed of sturdy aluminum, the OS 900 tripod is equipped with a large three-way, fluid panhead, and quick release mounting platform. It also features a geared center column, self-leveling rubber feet, dual leveling bubbles, locking leg braces and three-section legs with quick lever leg locks.

Specifications:

- Leg Diameter: 29 mm
- Maximum Extension: 64.9 inches
- Folded Length: 26.2 inches
- Manufacturer's Retail Price: \$79.99

- **OS 700** – Boasting all of the features of the OS 900, this deluxe full size tripod is a smaller version, but just as sturdy and versatile.

Specifications:

- Leg Diameter: 25mm
- Maximum Extension: 61.6 inches
- Folded Length: 24.8 inches
- Manufacturer's Retail Price: \$59.99

- **OS 7003** – This all metal professional tripod has a three-section leg design, with quick lever leg locks. It also includes a geared center column with center column locking leg braces. The tripod also comes with a large three-way panhead with quick release.

Specifications:

- Leg Diameter: 22 mm
- Maximum Extension: 64 inches
- Folded Length: 24 inches
- Manufacturer's Retail: \$159.99

- **OS 300** – This multi-purpose, lightweight tripod is engineered to handle photographic, digital and digital video cameras. It is equipped with a three-way fluid panhead and a unique video alignment pin, a geared center column, leg braces and rubber feet. It also comes with lightweight three-section legs with quick lever leg locks for fast and convenient set-up.

Specifications:

- Maximum Extension: 53 inches
- Folded Length: 20.2 inches
- Leg diameter: 18 mm
- Manufacturer's Retail Price: \$34.99

- **OS 250** – Compact and easy to carry, the OS 250 can also handle small SLRs, digital cameras and digital video cameras. Standard features include: a three-way fluid panhead with quick release camera mounting platform; lift center column; leg

braces; rubber feet and three position, three-section legs with quick lever leg locks for convenient set-up.

Specifications:

- Maximum Extension: 24.5 inches
- Folded Length: 12.25 inches
- Manufacturer's Retail Price: \$39.99

- **OS 100** – This four-section monopod works with both photographic and digital cameras, and comes with a foam handgrip, comfortable wrist strap and quick lever leg lock. It also has a rubber foot with a ground spike.

Specifications:

- Maximum Extension: 67 inches
- Folded Length: 21.3 inches
- Leg Diameter: 30 mm
- Manufacturer's Retail Price: \$29.99

- **OS 150** – The OS 150 is the deluxe model. This monopod is strong and can accommodate photographic, digital and digital video cameras. A three-way panhead sits atop the four-section monopod - which also has the quick lever leg locks and foam handgrip for added comfort. The deluxe model comes standard with a level bubble.

Specifications:

- Maximum Extension: 69.7 inches
- Folded Length: 24 inches
- Leg Diameter: 30 mm
- Manufacturer's Retail Price: \$49.99

OSN also offers a line of table tripod for digital cameras and small SLRs. These small, but sturdy tripods offer multi-positioning panheads, as well as metal ball socket panheads.

ANOTHER NEW PRODUCT FROM OSN

OSN has also unveiled a new window mount, **CP 20 Window Mount Clamp**. This new product will complement the company's original CP 10 Window Mount. The new CP 20 Window Mount features an all-metal, three-way panhead. The new panhead is larger and can be positioned both vertically and horizontally. Both models are ideal for photographers, outdoor enthusiasts and bird watchers.
