

## H2O Steam Power®

### Unique Atmospheric Design

HEAT! NO PRESSURE! Create steam heat energy on demand!  
**The result:** exceptional control, excellent penetration, and a controlled *dry steam* that's ideal for delicate jewelry.

**Designed with the professional jeweler in mind.** Durability, reliability, and efficiency come standard in a compact, ergonomic table top design.

**Powerful!** 1500 watts of energy to create the perfect dry steam that you need for the best cleaning action. The atmospheric design pulls only enough water for steam heat on demand! No mess!

### Safe and Effective

Uses no harsh chemicals or detergents. Completely safe for most gemstones and settings. Effectively cleans residue, dirt, and build up leaving behind a luxurious luster and sparkling finish.

**Made In The USA!** Manufactured in the states by SharperTek Industries, a recognized leader in professional grade jewelry cleaning equipment.

**One Year Warranty!** Parts and labor are protected for one year, assuring you a quality cleaning system ready to meet your everyday needs.

### Powerful Cleaning Action

SharperTek's H2O Steam Power® harnesses the power of steam heat without the excess moisture of a wet steam. Creates 80 psi of super hot, dry steam cleaning action that powerfully, and safely, removes dirt and debris.

Jewelers just like you agree, the action of heated dry steam is the best for cleaning soiled jewelry. Get a sharp solution. Get the SharperTek Power Steamer.
