Mystery Outline

Talented beauties from around the nation gather once a year to compete for the honorary title of Miss Teen United States. The reigning Miss New York is the 'one to beat' again this year and rumor has it that she has come up with an unbeatable comedy routine for the talent competition. Once the contestants arrive at the pageant, the excitement begins with the evening gown competition. The contestants exhibit their modeling skills as they show off their stunning gowns to the judges and then answer an interview question given by the pageant director, Ms. Victoria Morningstar. Next, the beautiful contestants suit up for the talent competition. The competition gets tighter as the contestants perform unique talent routines. All goes perfect until the crown diamond is discovered missing! The contestants must rally together to figure out who stole the diamond before the crown...and the pageant are ruined forever!
